STUDENT AVID BINDERS

Students will continue to use AVID binders to help with their organization this year. During homeroom, teachers will be working with students on their individual organization and preparedness for learning. Organization of materials, in particular, improves the frequency of work completion and ensures that assignments are turned in

according to deadlines. The organization of materials, thoughts, and time is a foundational component of an AVID classroom.

Each student will be responsible for maintaining a student binder. The student binder is an effective organizational tool used by students to support independence and larger educational success. The organizational tool provided a system for storage and organization of materials, notes, and student work in order to support learning at school, as well as at home.

A student's AVID binder will consist of:

- 3" 3-ring binder
- Student agenda
- Pencil pouch (containing pencils, pens, earbuds, erasers)
- Divider tabs
- Homework folder

Developing solid, long-term organizational habits for material management is essential for enduring student success and we are excited to continue to provide our students with this support.

How can you help your student with organization and the AVID binder? Each day your student should bring home his/her AVID binder. Ask your student to show you the binder and walk through the different components. Check your student's agenda each day to see what went on in class and if your student has homework. The agenda is a great communication tool for school and home. Each hour students are asked to write in the in-class assignment and homework assignment. Check your student's binder to see if it is organized and that your student has the supplies needed to be successful and productive at school.

AVID

Advancement Via Individual Determination (AVID) is a learning system that provides students with real-world strategies to accelerate their performance to succeed in college and life. Students learn how to ask questions that go beyond memorization and encourage higher-level thinking, providing students with an educational advantage. AVID layers on existing curriculum, allowing teachers to implement AVID strategies into any lesson or subject. Students utilize the Cornell note-taking process to organize their notes and create powerful study tools. They learn to recognize the most important parts of a lesson, create questions to guide their studying, and revisit and refine their notes to solidify learning. Students also learn soft skills, including public speaking, self-advocacy, time management and organization. The ISD is proud to offer AVID to all 6th, 7th and 8th grade students.

MIDDLE SCHOOL SUPPLY LIST

It is that time of year when we all begin to prepare for the upcoming school year. Part of this process is the purchase of school supplies. We ask for parents to carefully review the ISD Middle School Supply List. Our goal is to ensure parents receive accurate information regarding the supplies students will need to be prepared for classes each day.

Please find the ISD Middle School Supply List linked below.

<https://www.isdschools.org/2022-2023-school-supply-lists/>

We also ask parents to pay close attention to the type of binders requested on the school supply list. Zippered-binders will not be permissible for students to use for their classes. This decision is intentional as our staff works closely with students in the development of their organizational skills. A student's binder is also utilized as a tool to provide consistency in communication between school and home.

Additionally, we ask for our parents to utilize the support of our Family School Liaisons (FSL) if you are unable to provide supplies for your student. FSLs can be reached by calling the school directly at 816.521.5490
