

## Truman High School Marching Percussion Auditions

Students will receive a calendar with our audition dates and rehearsals.

The first event will be an introductory rehearsal where we will discuss how to play the marching instruments properly. We will also discuss what materials will actually be used for the audition and the process.

Students will come together on the day of the auditions and play in unison. The evaluator will make the rounds to observe players as they perform.

Students will be placed on instruments that will challenge them yet be within their grasp. To balance the band, we have to have a certain number in each instrument classification. If a student does not get what they want, they need to hone their skills and try again the following year.

Changes throughout the year may take place depending on student attendance, practice skills and maintenance of show music, and rehearsal etiquette.
