## INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education  
Independence 30 School District

### **Report on the Financial Statements**

We have audited the accompanying modified cash basis financial statements of the governmental activities, the blended component unit, each major fund and the remaining fund information of Independence 30 School District ("District"), Missouri, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note I; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the blended component unit, each major fund and the remaining fund information of the District as of June 30, 2014, and the respective changes in modified cash basis financial position thereof for the year then ended in accordance with the basis of accounting described in Note I.

### ***Emphasis of Matters***

As described in Note XII to the financial statements in 2014, the District has adopted new accounting guidance, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinions are not modified with respect to this matter.

### ***Basis of Accounting***

We draw attention to Note I of the financial statements that describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

### ***Other Matters***

#### ***Report on Supplementary and Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The budgetary comparison schedules and the schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedules presented on pages 30 through 34 and the schedule of expenditures of federal awards presented on pages 45 and 46 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2014, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENCE 30 SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Independence 30 School District ("District") was established in 1866 under the Statutes of the State of Missouri. The District operates as a "six director" District (with seven members of the Board of Education) as described in RSMo Chapter 162.

The School District, located in Jackson County, serves an area of approximately 31 square miles. It is staffed by 1,080 non-certified employees, 995 certificated full-time teaching personnel, and 84 administrative employees who provide services to approximately 14,062 students and other community members. The School District currently operates 19 early education/elementary schools (PK-5), four middle schools (6-8), three high schools (9-12), one alternative school and two Early Education Centers.

Reporting Entity

A reporting entity comprises the primary government, component units, and other organizations that are included to ensure that the District's financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Independence 30 School District, this includes general operations, food service, and student-related activities.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. As of June 30, 2014, the District has the following component unit:

Independence School District Public Building Corporation

This component unit was incorporated under Missouri statutes as a not-for-profit organization for acquisition, construction, improvement, extension, repair, remodeling, renovation and financing of public sites, buildings, furnishings and equipment for the District's use for educational purposes.

Due to the nature of the Corporation's business, the District has elected not to present the component unit separately, but rather to report it in the Governmental Activities.

Excluded from the reporting entity are the Public School Retirement System of Missouri and the Public Education Employee Retirement System. The participating school districts' governing bodies have appointed these potential component units jointly. These are independent units that select management staff, set user charges, establish budgets and control all aspects of its daily activity.

FOR THE YEAR ENDED JUNE 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The District's financial statements are prepared in accordance with the modified cash basis of accounting, which is a comprehensive basis of accounting (OCBOA) other than generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements. The more significant accounting policies established in GAAP and used by the District are discussed below.

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. For the year ended June 30, 2014, all of the District's activities are classified as governmental.

*Government-Wide Financial Statements*

The Statement of Net Position and the Statement of Activities display information about the School District as a whole. These statements include the non-fiduciary financial activities of the primary government. The effect of inter-fund activity has been eliminated from these statements. These statements report those activities of the District that are governmental (i.e. generally supported by taxes and intergovernmental revenues). Fiduciary funds are not included in the government-wide financial statements.

The Statement of Net Position presents the financial condition of the District's governmental activities at year end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenditures are those that are specifically associated with a service, program, or department, and therefore, are clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as the District's general revenues, with certain limited exceptions.

The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing or drawing from the District's general receipts.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting. The District's policy is to prepare its government-wide financial statements on the modified cash basis of accounting; consequently, revenues are recognized when received rather than when earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred. The purchase of investments is recorded as assets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

*Fund Financial Statements*

Fund financial statements report detailed information about the District. The District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The District believes that all the funds presented are important to the users of its financial statements; therefore, it considers the General Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund all to be major.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting. The District's policy is to prepare its fund financial statements on the modified cash basis of accounting; consequently, revenues are recognized when received rather than when earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred.

*Fiduciary Fund Statements*

*Agency* – Agency funds are used to account for assets held by the District in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for the flex spending account of the District.

*Governmental Funds*

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid.

The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

*General (Incidental) Fund:* Accounts for general activities of the District, including student activities and food service, which are not required to be accounted for in another fund.

*Special Revenue (Teachers') Fund:* Accounts for expenditures for certified employees involved in administration and instruction. It includes revenues restricted by the state and local tax levy for the payment of teacher salaries and certain employee benefits.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

*Capital Projects Fund:* Accounts for the proceeds of long-term debt, taxes and other revenues restricted for acquisition or construction of major capital assets and certain equipment designated by Missouri statute.

*Debt Service Fund:* Accounts for the accumulation of resources for and the payment of, principal, interest and finance charges on general long-term debt.

Basis of Accounting

The financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board. This basis of accounting involves modifications to the cash basis of accounting to report in the Statement of Net Position or Balance Sheet cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include investments, payroll withholdings and deferred revenue arising from cash transactions or events.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected, and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods or services received but not yet paid, and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not arise from a cash transaction or event (such as donated assets and post-employment benefit obligations) are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the District utilized the basis of accounting recognized as generally accepted in the United States, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary fund types (if any) would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

Fiduciary Funds are maintained on the cash basis of accounting. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, revenue is recorded when received and expenditures are recorded when paid.

Cash with Fiscal Agents

To improve cash management, all cash received by the District is pooled. Monies for all funds, except for the Debt Service funds are maintained in this pool. Individual fund integrity is maintained through District records. (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District). Each fund type's portion of this pool is displayed on the Governmental Funds Balance Sheet as "Cash and Cash Equivalents and Investments" under each fund's caption.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The District utilizes a financial institution to service bonded debt as principal and interest payments come due. The balance in this account is presented on the financial statements Debt Service Fund as “Investments” and “Investments in Escrow” and includes MOHEFA funds and other District purchased U.S. Government Securities.

Teachers’ Salaries

Payroll checks written and dated in June 2014, for July and August 2014, payrolls from 2013-2014 contracts are included in the financial statements as an expenditure paid in the month of June. This practice has been consistently followed in the previous years.

Post-Employment Benefits

In addition to the pension benefits described in Note VII, the District makes available post-retirement healthcare benefits to all employees who retire from the District. Participation by retirees in the District health plan is subjected to terms and conditions set forth in the Board Policy. The District has not made a formal evaluation or projection on the future cost of the existing health care benefit plan in relation to retirees. There were 118 retiree participants with premiums totaling \$181,404.12 at year end.

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former and retired employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid by the insured monthly for the next month’s coverage. This program is offered for 18 months after the termination date. There is no associated cost to the District under this program, and there were 36 participants at year end. Premiums of \$64,617.72 were paid during the year.

Net Position/ Fund Balance Classifications

Net position represents the difference between assets and liabilities.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

When both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

INDEPENDENCE 30 SCHOOL DISTRICT  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED JUNE 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Nonspendable Fund Balance consists of funds that cannot be spent due to their form (e.g., inventories and prepaids) or funds that legally or contractually must remain intact.
- Restricted Fund Balance consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.
- Committed Fund Balance consists of funds that are set aside for a specific purpose by the District's highest level of decision-making authority, the Board of Education. Formal action by vote must be taken prior to the end of the fiscal year. The same formal action must be taken to remove or change the limitations placed on the funds.
- Assigned Fund Balance consists of funds that are set aside for a specific purpose by the District's highest level of decision-making authority, the Board of Education, or a body or official, such as the Chief Financial Officer, who has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance.
- Unassigned Fund Balance consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

The Board of Education has the authority to set aside funds for a specific purpose. Commitments are authorized by formal Board resolution. The Board delegates the authority to assign amounts for specific purpose(s) to the chief financial officer.

When committed, assigned and unassigned funds are available for expenditure, committed funds should be spent first, assigned funds second, and unassigned funds last.

As of June 30, 2014, fund balance components other than unassigned fund balances consist of the following:

	<u>Nonspendable</u>	<u>Restricted</u>	<u>Committed</u>	<u>Assigned</u>
General Fund	\$ -	\$ 2,191,871.00	\$ 2,220,302.73	\$ 1,164,736.18

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Extraordinary and Nonrecurring Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Nonrecurring items are transactions or events that are within the control of the Board of Education and are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year 2014.

Revenues-Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the modified cash basis when the District receives the revenue.

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On a modified cash basis, revenue from property taxes is recognized in the fiscal year for which the taxes are collected. Revenue from grants, entitlements and donations is recognized in the fiscal year in which the funds are received and eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources for a specific purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

Flex Spending Arrangement

This arrangement allows participating employees to make pre-tax contributions to the flexible spending arrangement accounts for reimbursements of health and/or dependent care expenses.

Inventories

The District does not maintain inventory cost records. Inventory is deemed to be immaterial and is accounted for using the purchase method in which supplies are charged to expenditures when purchased.

INDEPENDENCE 30 SCHOOL DISTRICT  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED JUNE 30, 2014

II. CASH AND INVESTMENTS

Deposits

Missouri state statute requires that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The District maintains a cash pool that is available for use by the General Fund, Special Revenue Fund and Capital Projects Fund.

Each fund type's portion of this pool is displayed on the Balance Sheet as "Cash and Investments" under each fund's caption. State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District.

At June 30, 2014, the carrying amount of the District's pooled deposits and investments was \$42,543,538.68 and the bank balance was \$52,791,362.00. At year end, the District's carrying amount of non-pooled deposits and investments was \$4,617,810.00, and the bank balance was \$4,617,810.00. Of the bank balances, \$250,000.00 was covered by federal depository insurance and the remaining balance was collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

Investments

The District may purchase any investments allowed by the State Treasurer and Repurchase Agreements. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than five years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law.

As of June 30, 2014, the District's investments included U.S. Government Securities that are not subject to credit risk. A summary of the District's investments as of June 30, 2014, are as follows:

	Average Maturity	Cost Amount	Market Amount
<u>Pooled Investments</u>			
Tennessee Valley Authority	> 5 years	\$ 1,997,000.00	\$ 2,386,452.00
Subtotal Pooled Investments		1,997,000.00	2,386,452.00
<u>Non-Pooled Investments</u>			
MOHEFA	> 5 years	4,617,810.00	4,617,810.00
Subtotal Non-Pooled Investments		4,617,810.00	4,617,810.00
Total Investments		\$ 6,614,810.00	\$ 7,004,262.00

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's investment policy does not include custodial credit risk requirements. The District's deposits were not exposed to custodial credit risk for the year ended June 30, 2014.

INDEPENDENCE 30 SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2014

---

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the District or its agent but not in the government's name. The District does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the District or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the District for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The District has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The District's deposits were not exposed to concentration of investment credit risk for the year ended June 30, 2014.

State law is very strict regarding allowable investments for school districts. Under a very limited situation, the District has made an investment purchase that exceeds the maturity period allowable but is of a type allowable under state law. Two Tennessee Valley Authority bonds maturing April 1, 2056, were purchased by the District with a par value of \$1,000,000 each for purposes of the Phil Roberts Scholarship Fund. The purchase of the specific TVAs was a requirement by the donor to provide consistent revenue for future scholarships. The District has no other investments or intentions of purchasing other investments outside of those allowable by state law.

III. TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. The county collects the property tax and remits it to the District.

The District also receives sales tax collected by the State, and it is remitted based on a prior year weighted average attendance. The District is required to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year. In October 1994, the patrons of the Independence 30 School District voted to forego this reduction in property taxes, thus earmarking the entire amount for education.

The assessed valuation of the tangible taxable property for the calendar year 2013, for purposes of local taxation, was \$926,265,918.

INDEPENDENCE 30 SCHOOL DISTRICT  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED JUNE 30, 2014

III. TAXES (concluded)

The tax levy per \$100 of the assessed valuation of tangible taxable property for the calendar year 2013 for purposes of local taxation was:

	Unadjusted	Adjusted
General Fund	\$ 4.4300	\$ 4.4300
Debt Service Fund	1.2700	1.2700
Total	\$ 5.7000	\$ 5.7000

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2014, aggregated approximately 97.48% of the current assessment computed on the basis of the levy as shown above.

IV. INTERFUND TRANSFERS

	Transfer In	Transfer Out
General Fund	\$ -	\$ 454,145.28
Special Revenue Fund	-	-
Debt Service Fund	-	1,149,566.26
Capital Projects Fund	1,603,711.54	-
Total	\$ 1,603,711.54	\$ 1,603,711.54

Interfund transfers for the year ended June 30, 2014, consisted of \$1,603,711.54 to the Capital Projects Fund; \$454,145.28 from the General Fund to the Capital Projects Fund; and \$1,149,566.26 from the Debt Service Fund to the Capital Projects Fund. The transfer from the General Fund was for food service equipment and DESE calculated transportation costs. The transfer from the Debt Service Fund was for the building portion of lease series 2008A.

V. LONG-TERM DEBT

Long-term debt balances and activity of the District's governmental activities for the year ended June 30, 2014, were as follows:

 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED JUNE 30, 2014

V. LONG-TERM DEBT (concluded)

General obligation bond debt service payments are made from the Debt Service Fund.

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to 15% of the assessed valuation of a district (including state-assessed railroad and utilities). The District did not exceed its legal debt margin at June 30, 2014.

VI. LEASES

*Operating Leases:*

The District leases buses under several operating lease agreements with Blue Bird Bus Company that will expire in 2022. The terms of the agreements include varying annual lease payments, totaling \$1,108,869.10 for the year ended June 30, 2014. Although all lease agreements provide for canceling the lease at the District's option at the renewal date each year, the District does not foresee exercising its option to cancel. Payments are made from the General Fund.

The following is a schedule of the future minimum lease payments under the leases (assuming non-cancellation):

Year Ended June 30,	Buses
2015	\$ 233,668.30
2016	215,668.30
2017	210,668.30
2018	146,700.00
2019	104,700.00
2020-2022	197,464.20
Totals	\$ <u>1,108,869.10</u>

*Capital Leases:*

The District has entered into lease agreements for the Annexation and Independence Regional Innovation Center Projects as described below. The terms of the agreements include varying semi-annual lease payments totaling \$2,133,111.28 for the year ended June 30, 2014.

Annexation Project Lease

Eight school buildings and approximately 2,500 students were annexed from Kansas City, Missouri School District following a November 2007 vote that included voters of both districts. The State appointed Board of Arbitration decided that the Independence School District would compensate the Kansas City, Missouri School District for the real and personal property transferred July 2008. The District worked with the Missouri School Boards Association, Commerce Bank, N.A. and George K. Baum & Company to issue lease certificates to pay for the property transferred, an energy savings contract and other start-up costs needed to improve the facilities.

---

VI. LEASES (continued)

In November 2008, \$20,165,000 in lease certificates were issued: Series 2008A \$16,055,000 for purchase of the annexation property and Series 2008B \$4,110,000 for an energy savings contract related to the annexation sites. In June 2009, Series 2009C lease certificates in the amount of \$10,290,000 were issued to pay for start-up costs related to the annexation sites. Under the lease agreement, the District makes annual lease payments, which are used to pay the principal and interest payments of the lease certificates.

In November 2009, voters authorized \$85,000,000 in general obligation bonds with a portion of these dedicated to defeasing the 2008B and 2009C lease certificates. In February 3, 2010, general obligation bond series 2010A was issued. Use of the bond proceeds included defeasing and removing from the capital lease schedule the 2008B and 2009C lease certificates by payment in full for the 2009C series and setup of an irrevocable escrow to make all future lease payments for the 2008B series.

Independence Regional Ennovation Center Project Lease

The City of Independence created a Building Rehabilitation Fund funded with tax increment financing (TIF) revenues generated within the TIF Redevelopment Project Area of the TIF Redevelopment Plan for the Independence Regional Health Center and Medical Center of Independence campuses after they closed and reopened in a new location as Centerpoint Medical Center. In March 2009, the City Council adopted a resolution directing that \$10 million from the Building Rehabilitation Fund be allocated to redevelopment of the Independence Regional Health Center and selected Edwards Management Group LLC and the Independence School District as the developer. The Independence Regional Ennovation Center Project (“IREC Project”) consists of the acquisition of the former Independence Regional Medical Center facility and the renovation, remodeling, repair and improvement and equipping and furnishing of the facility. The redeveloped facility will be partially occupied by the District and partially a business incubator for bioscience wet and dry labs, commercial kitchen facilities, and technology laboratories.

Initial available funds from the Building Rehabilitation Fund were not sufficient for the renovation phases. The District worked with the Missouri School Boards Association, Commerce Bank, N.A. and George K. Baum & Company to develop financing that includes Lease Participation Certificates. Under the lease agreement, the District will make semi-annual lease payments to Missouri School Boards Association’s Trustee Commerce Bank. The lease payments match the principal and interest schedule for the Lease Participation Certificates. Funds available to make the lease payments are derived from various IREC project funds including future rental payments and Building Rehabilitation Funds.

In June 2009, the District issued \$4,310,000 in Lease Participation Certificates for the IREC Project in two parts: Series 2009A \$1,525,000 was Insured Taxable Build America Lease Participation Certificates for the District portion of the project and Series 2009B \$2,785,000 was Insured Taxable Lease Participation Certificates for the business incubator portion of the project. In June 2010, the District issued \$4,045,000 in Lease Participation Certificates for phase three of

the IREC Project in two series: Series 2010A, \$1,590,000 was Insured Taxable Build America Lease Participation Certificates for the District portion of the project and Series 2010B \$2,455,000 was Insured Tax-Exempt Recovery Zone Facility Lease Participation Certificates for the business incubator portion of the project. In February 2011, the Board of Education issued \$3,075,000 in Lease Participation Certificates for phase four of the IREC Project.

The Series 2009A and 2010A Certificates were issued for the District-occupied space under the provisions of the American Recovery and Reinvestment Act of 2009, authorizing the District to issue taxable obligations known as “Build America Bonds” to finance capital expenditures for which it could otherwise issue tax-exempt obligations and to elect to receive a subsidy payment from the United State Treasury equal to 35% of the amount of each interest payment on the Build America Bonds. Holders of neither Series are entitled to any federal income tax credits due to the irrevocable election to issue the Series Certificates as Build America Bonds.

The Series 2010B Certificates were issued as “Recovery Zone Facility Bonds” within the meaning as revised by the American Recovery and Reinvestment Act of 2009 (The Act). The Act provided for a new category of “exempt facility bonds” for the purpose of promoting development or other economic activity in a “recovery zone” and to provide for the issuance of tax-exempt obligations to finance the construction, reconstruction, renovation or acquisition of recovery zone property to be used in a qualified business in the recovery zone.

Capital lease balances and activity of the District for the year ended June 30, 2014, were as follows:

In November 2009, voters authorized \$85 million in bonds. In February 2010, \$25 million was issued with a portion to be used to refund the Series 2008B and Series 2009C lease certificates and other lease obligations. Crossover escrow accounts were established to pay future payments and the series were removed from the District’s capital lease schedules.

VII. PENSION PLANS

Statement 27 of the Governmental Accounting Standards Board (GASB), *Accounting for Pensions by State and Local Governmental Employers*, requires public employers to provide detailed disclosure of pension information in financial statements and accompanying information.

A. PSRS/PEERS administers two separate pension plans as described below:

1. The District contributes to the Public School Retirement System of Missouri (PSRS) – PSRS is a mandatory cost-sharing multiple-employer defined benefit pension plan for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and some educational associations. PSRS provides service retirement, death and disability benefits to its members.

Statutes governing PSRS are found in Sections 169.010 - 169.141 and Sections 169.560 – 169.595 of RSMo.

PSRS members are required to contribute 14.5% of the annual covered salary during 2011-2012, 2012-2013 and 2013-2014. The employer districts were required to match this amount. The Board of Trustees sets the contribution rate based upon the recommendation of the system's actuary.

Total required employer contributions for PSRS are equal to 100% of employer charges. The District's contributions to PSRS for the years ending June 30, 2014, 2013 and 2012 were \$9,808,174.51, \$9,565,382.22 and \$9,243,327.66, respectively, equal to the required contributions.

2. The District also contributes to the Public Education Employee Retirement System of Missouri (PEERS) – PEERS is a mandatory cost-sharing multiple-employer defined benefit pension plan for non-certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and some educational associations. Employees of covered districts who work 20 or more hours per week on a regular basis and are not contributing members of PSRS must contribute to PEERS.

Statutes governing PEERS are found in Sections 169.600 – 169.715 and Sections 169.560 – 169.595 RSMo.

PEERS members were required to contribute 6.86% of the annual covered salary during 2011-2012, 2012-2013, and 2013-2014. The employer districts were required to match this amount. The Board of Trustees sets the contribution rate based upon the recommendation of the system's actuary.

Total required employer contributions for PEERS are equal to 100% of employer charges. The District's contributions to PEERS for the years ending June 30, 2014, 2013 and 2012 were \$2,100,104.77, \$2,023,055.34 and \$2,005,544.06, respectively, equal to the required contributions.

VII. PENSION PLANS (concluded)

B. PSRS/PEERS issues a stand-alone Comprehensive Annual Financial Report. Interested parties may obtain a copy by writing to PSRS/PEERS, P.O. Box 268, Jefferson City, MO 65102 or by calling 800-392-6848. A copy may also be viewed online at <http://www.psr-peers.org/Investments/AnnualReport.htm>.

VIII. INSURANCE

The District is exposed to various risks of loss to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance to protect itself from such risks.

The District was not able to obtain workers' compensation insurance at a cost it considered to be economically justifiable and therefore formed INDEP Captive Cell Insurance Corporation. INDEP is a cell insurance company under Kane (USA). The District pays a premium to INDEP's third party claims processor PMA Group. Because the premium is paid quarterly, the District also purchases a temporary letter of credit to cover risk of assessment for short-term shortfalls prior to final premium payments. Part of the premium is used by INDEP to purchase excess insurance to reduce INDEP's risk. The District believes that it is not possible to estimate the range of contingent losses to be borne by the District.

IX. COMMITMENTS AND CONTINGENCIES

During the course of ordinary operations, the District is subjected to various lawsuits. The District's insurance carrier and attorneys are vigorously contesting all the claims. The District believes that all lawsuits outstanding at June 30, 2014, will have no material impact on the finances of the District.

As of June 30, 2014, the District had \$3,474,620 outstanding contract commitments for construction and repair projects. In addition, the District has unfunded retiree and sick leave benefits.

Compensated Absences

Vacation time, personal business days, and sick leave are considered as expenditures in the year paid. Total vested and unpaid sick leave at June 30, 2014, amounted to 49,454.22 days. This number is unaudited.

X. POST-EMPLOYMENT BENEFITS

COBRA Benefits – Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits (health, dental and/or vision) to eligible former and retired employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid by the insured monthly for the current month's coverage plus a 2% administration fee. This program is offered for a duration of 18 months after the termination date. There is no associated cost to the District under this program. At June 30, 2014, there were 36 participants in COBRA benefits. The amount of premiums paid during the fiscal year was \$64,617.72.

X. POST-EMPLOYMENT BENEFITS (continued)

In addition to the pension benefits described in Note VII, the District makes available post-retirement benefits to employees who retire from the District in the form of payment for accumulated sick leave benefits at time of retirement, participation in the District healthcare plan, and an incentive for June 30, 2014, qualifying retirees.

Under Board Policy, retirees are paid \$50 per day for their accumulated sick leave benefits at time of their retirement not to exceed 65 days. The maximum number of reimbursable days was set by a change in Board Policy on June 30, 2004. Employees who were active at June 30, 2004, with more than 65 days of accumulated sick leave have been grandfathered to reimbursable days not to exceed their accumulated sick leave benefits as of June 30, 2004. As of June 30, 2014, active employees have 49,454.22 days of accumulated sick leave. Retiree sick leave is considered an expenditure in the year paid. During the year ended June 30, 2014, \$135,200.00 for 2,704.00 days was paid to retirees under this policy.

Under state law, retirees of the District can choose to participate in the District's health plan within one year of retirement. They must receive the same level of benefits, options, and rates as active employees. Retirees pay the full premium cost to participate in the District's health plan unless they qualified for a retiree supplemental rate benefit under Board Policy before June 30, 2003. If a retiree leaves the District's retiree plan, they cannot return to the plan.

Under prior Board Policy, those who retired prior to June 30, 2003, may have qualified for the District to pay a portion of the retiree's health plan premium for the rest of his or her life. Those that did not qualify for the District supplemental rate plan pay the full premium cost to participate in the District's health plan. Qualifications included: (1) served a minimum of 10 years in the District, (2) assumed retirement status with the Public School Retirement or Public Education Employee Retirement Systems of Missouri, (3) was a member of the District health insurance plan for at least one year prior to retirement and (4) accumulated 100 sick leave days at the time of retirement and chose the benefit option in lieu of cash payment for the days.

Rate caps apply to the District-paid portion dependent upon whether the retiree was 57 or younger or was 58 or older at time of retirement, current age over or under 65, and if seven years has passed since retirement. Caps include the District-paid portion of active employees at time of retirement until age 65, at age 65 converts to current plan Medicare carve-out rate until 7 years following retirement date, and thereafter, the Medicare carve-out rate at time of retirement. Medicare carve-out rates are further limited to the District-paid plan for active employees during the applicable period. District retiree benefit contributions are considered an expenditure in the year paid. During the year ended June 30, 2014, \$181,404.12 was paid on behalf of 118 retirees under the above plan.

During the 2002-2003 school year, the District suffered financial hardship. One-time retirement incentives were offered to certificated teachers and administrators (certificated retirement incentive) and classified employees (classified retirement incentive). The certificated retirement was complete as of June 30, 2011. The classified retirement incentive included accumulated sick leave days at \$150 per day to be paid on a monthly basis at the rate of \$208.08 until the full amount has been paid. During the 2009-2010 school year, the District suffered financial hardship and offered another one-time retirement incentive to certificated teachers and administrators (certificated retirement incentive). The 2010 certificated retirement incentive included one-half of the retiree's final year base pay to be paid on a monthly basis over five years through June 30, 2015, plus accumulated sick leave days at \$100 per day.

X. POST-EMPLOYMENT BENEFITS (concluded)

All plans allow for a single beneficiary in case of the retiree's death prior to final payment. If both the retiree and the beneficiary die prior to the final payment, there is no further obligation by the District. The retirement incentives are considered an expenditure of the District in the year paid. During the year ended June 30, 2014, \$382,078.97 was paid to 55 retirees under the 2011 certificated retirement incentive. Remaining amount to be paid under the 2011 certificated retirement incentive is \$397,705.71 through 2014-2015. During the year ended June 30, 2014, \$4,993.92 was paid to 2 retirees under a 2003 classified retirement incentive. Remaining amount to be paid under the classified retirement incentive is \$4,616.88 through 2015-2016.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

XII. CHANGE IN ACCOUNTING PRINCIPLE

During the fiscal year ended June 30, 2014, the District implemented Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

(The Primary Government)  
NOTES TO THE BUDGETARY COMPARISON SCHEDULES  
FOR THE YEAR ENDED JUNE 30, 2014

---

BUDGETS AND BUDGETARY ACCOUNTING

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 67, RSMo, the District adopts a budget for each fund.
2. Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning July 1. The proposed budget includes estimated revenues and proposed expenses for all District funds. Budgeted expenses cannot exceed beginning available monies plus estimated revenues for the year.
3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
4. The budget was legally enacted by a vote of the Board of Education on June 27, 2013.
5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the budget information included in the financial statements. Budgeted amounts are as originally adopted, or as amended by the Board of Education.
6. Budgets for District funds are prepared and adopted on the cash basis (budget basis), recognizing revenue when collected and expenses when paid.

POST-EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note VII, the District allows employees who retire from the District to participate in the District's medical insurance plan. Upon meeting the retirement requirements of PSRS and PEERS, the employees can elect to participate in the District's plan. Refer to Note X for additional details.

## INDEPENDENT ACCOUNTANT'S REPORT ON MANAGEMENT'S ASSERTIONS ABOUT COMPLIANCE WITH SPECIFIED REQUIREMENTS OF MISSOURI STATE LAWS AND REGULATIONS

To the Members of the Board of Education  
Independence 30 School District

### **Report on Compliance with State Requirements**

We have examined management's assertions that the Independence 30 School District ("District") complied with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures; accurate disclosure by the District's records of average daily attendance and average daily transportation of pupils, and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2014.

### **Management's Responsibility**

Management is responsible for the District's compliance with the aforementioned requirements.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on management's assertions about the District's compliance based on our examination. Our examination was made in accordance with the attestation standards established by the American Institute of Certified Public Accountants and, accordingly, includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our opinion does not provide a legal determination on the District's compliance with specified requirements.

### **Opinion on Compliance with State Requirements**

In our opinion, management's assertions that the Independence 30 School District complied with the aforementioned requirements for the year ended June 30, 2014, are fairly stated, in all material respects. However, we noted one immaterial instance of noncompliance regarding the special revenue fund being deficit budgeted.

This report is intended solely for the information and use of the Board of Education, District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

I. CHAPTER 67 RSMO (BUDGET STATUTE)

Chapter 67 RSMO requires that each political subdivision of the State of Missouri adopt an annual budget, itemized by fund. It further requires that in no event shall the total proposed expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year.

The Special Revenue Fund was deficit budgeted.

II. STATE FINDINGS

- 2014-001 The District shall not obtain investments with maturities greater than 5 years. The District invested in two Tennessee Valley Authority bonds with maturity dates greater than 5 years due to a donor requirement. Investing in the TVA bonds was the donor's requirement. If changed, the donor's future scholarship contributions will be lost.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH  
*GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education  
Independence 30 School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the blended component unit, each major fund and the remaining fund information of Independence 30 School District ("District"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 22, 2014.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. (FS2014-002)

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item FS2014-001.

### ***District's Response to Findings***

District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

### INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education  
Independence 30 School District

#### **Report on Compliance for Each Major Federal Program**

We have audited Independence 30 School District's ("District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### ***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### ***Opinion on Each Major Federal Program***

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

## Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENCE 30 SCHOOL DISTRICT  
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE YEAR ENDED JUNE 30, 2014

---

NOTE 1 - GENERAL

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available. This Schedule includes all federal awards administered by the District.

NOTE 2 - BASIS OF ACCOUNTING

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the Schedule includes expenditures of both cash and noncash awards.

NOTE 3 - BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards is presented using the cash basis of accounting.

NOTE 4 - RELATIONSHIP TO ACCOMPANYING FINANCIAL STATEMENTS

Federal awards are reported in the District's accompanying financial statements as follows:

<u>Federal Sources</u>	
General Fund	\$ 15,699,704.46
Special Revenue Fund	5,674,687.31
Capital Projects Fund	44,709.18
	<u>\$ 21,419,100.95</u>

NOTE 5 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with generally accepted accounting principles, as applicable to the modified cash basis of accounting.

---

NOTE 6 -MATCHING REVENUES

For those funds that have matching revenues and state funding, federal expenditures were determined by deducting matching revenues from total expenditures.

NOTE 7 - NON-CASH PROGRAMS

The commodities received, which are non-cash revenues, are valued using prices provided by the United States Department of Agriculture.

NOTE 8 - SUBRECIPIENTS

The District provided no federal funds to subrecipients during the year ended June 30, 2014.

II. FINANCIAL STATEMENT FINDINGS

FS 2014-001 Criteria: The District shall not obtain investments with maturities greater than 5 years.

Condition: The District is not in compliance with state investment statutes.

Context: During the course of our audit, we noted that the District obtained investments with maturities greater than the 5 year maximum established by state statutes.

Effect: Due to a donor's investment requirement, the District is not in compliance with state statute investment policies.

Cause: The District invested in two Tennessee Valley Authority bonds with maturity dates greater than 5 years due to a donor requirement.

Recommendation: We recommend the District discuss the state statute requirements with the donor as a means to possibly invest in other government securities to be in state compliance.

Views of responsible officials and planned corrective actions: Investing in the TVA bonds was the donor's requirement. If changed, the donor's future scholarship contributions will be lost.

FS 2014-002 Criteria: Financial statement accounts and transportation should be reconciled in a timely manner.

Condition: Bank and transportation reconciliations were not prepared in a timely manner for the year ended June 30, 2014.

Context: During the course of our audit, we noted that the District did not perform bank and transportation reconciliations within a reasonable amount of time for the year ended June 30, 2014.

Effect: Due to the unreasonable amount of time required to complete the bank and transportation reconciliations, financial statements cannot be provided to management for timely decision making.

Cause: The District did not complete the June bank reconciliation and transportation reconciliation required for audit purposes in a timely manner.

Recommendation: We recommend the District implement appropriate procedures to prepare timely bank and transportation reconciliations.

Views of responsible officials and planned corrective actions: Reconciliations were in a semi-finished state but not fully completed in a timely manner due to staff changes and complexity of transactions. The District will monitor and improve controls to create timely completed bank and transportation reconciliations.

I. FINANCIAL STATEMENT FINDINGS

- FS 2013-01    Criteria: The District shall not obtain investments with maturities greater than 5 years.
- Condition: The District is not in compliance with state investment statutes.
- Context: During the course of our audit, we noted that the District obtained investments with maturities greater than the 5 year maximum established by state statutes.
- Effect: Due to a donor's investment requirement, the District is not in compliance with state statute investment policies.
- Cause: The District invested in two Tennessee Valley Authority bonds with maturity dates greater than 5 years due to a donor requirement.
- Recommendation: We recommend the District discuss the state statute requirements with the donor as a means to possibly invest in other government securities to be in state compliance.
- Views of responsible officials and planned corrective actions: Investing in the TVA bonds was the donor's requirement. If changed, the donor's future scholarship contributions will be lost.
- Status: Corrective action has not been implemented; therefore, this finding is repeated in the current year as finding FS2014-001.
- FS 2013-02    Criteria: Financial statement accounts and transfers should be reconciled in a timely manner.
- Condition: Bank reconciliations and transfers were not prepared in a timely manner for the month ended June 30, 2013.
- Context: During the course of our audit, we noted that the District did not perform bank reconciliations and transfers within a reasonable amount of time for the month ended June 30, 2013.
- Effect: Due to the unreasonable amount of time required to complete the bank reconciliation and untimely bank transfers, financial statements cannot be provided to management for timely decision making.
- Cause: The District did not complete the June bank reconciliation required for audit purposes until October in the following fiscal year. Transfers were performed two weeks after year end causing overdraft balances in certain account balances at fiscal year-end.
- Recommendation: We recommend the District implement appropriate procedures to prepare timely bank reconciliations and transfers.
- Views of responsible officials and planned corrective actions: The District will monitor and improve controls to create timely bank reconciliations and transfers.

SUMMARY OF PRIOR YEAR AUDIT FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2014

I. FINANCIAL STATEMENT FINDINGS (continued)

Status: The District has corrected the timeliness of transfers in the current year; however, the District has not corrected the timeliness of bank reconciliations. This part of the finding has been repeated in the current year as finding FS2014-002.

FS 2013-03 Criteria: Component unit should be included in the financial statements of the primary government as outlined by *Governmental Accounting Standards Board Statement No. 14, The Financial Reporting Entity*, which defines component units as legally separate organizations which are fiscally dependent on the primary government regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board and states that component units should be reported discretely in one or more columns separate from the primary governmental unit as amended by *Governmental Accounting Standards Board Statement No. 61, The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34*.

Condition: The District is not in compliance with *Governmental Accounting Standards Board Statement 61, The Financial Reporting Entity* with regards to the definition and reporting of component units within the primary government's financial statements.

Context: During the course of our audit, we noted that the District did not report the School District of Independence Foundation, Inc. as a component unit within the audited financial statements.

Effect: Because the District did not include the component unit into the financial statements, the primary government's financial statements are incomplete.

Cause: The District did not report the School District of Independence Foundation, Inc. as a component unit in its financial statements.

Recommendation: We recommend the District report the presentation of the School District of Independence Foundation, Inc. as a component unit within the financial statements.

Views of responsible officials and planned corrective actions: The District will consider presenting the School District of Independence Foundation, Inc. as a component unit within the financial statements.

Status: This finding has been resolved due to new component unit criteria.

II. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There are no findings and questioned costs relating to federal awards for the year ended June 30, 2013.
