

# 2ND GRADE FAMILY CHOICE BOARD

## LITERACY

### PHONOLOGICAL AWARENESS

#### I Spy

Use [this](#) picture to play I Spy. Tell your family member the number of sounds in the thing you spy. "I spy a word that has three sounds."

### PHONICS

#### Letter Pong

For this fun phonics activity, label plastic cups with blends like sl, cl, cr, tr, scr, and str. Arrange the cups into a triangle shape and let your child toss the ball into a cup. Each time they get the ball into the cup, they need to say a word that uses that blend.

### FLUENCY

Read the following linked poem:

#### [Snowballs](#)

Read the poem aloud to a family member.

### VOCABULARY

Listen to *The Snowy Day* story online [HERE](#).

Listen for interesting words Example: heaping  
Find 2 more!

### COMPREHENSION

Listen to *The Snowy Day* story online [HERE](#).

What are some words you could use to describe Peter? What is your proof?

# 2ND GRADE FAMILY CHOICE BOARD

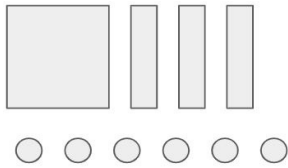

## MATH GAMES

### PLACE VALUE

Have a family member give you a three-digit number. Draw it out in the base-ten form.

Example: 136

**Memory Make 10**  
 Take out all the face cards in a deck, and lay the cards down, so the numbers are not shown. Turn over two cards. If, when added, they make a ten, you get to keep them; if they don't, turn them over and try again.

Aces are worth 1.

### PROBLEM SOLVING

If vowels are worth 7 points each and consonants are worth 2 points each, which word is worth the most?

\_\_\_\_\_ cheese

\_\_\_\_\_ mouse

\_\_\_\_\_ crackers

### NUMBER DETECTIVES

I am the fewest number of coins to make 68 cents.

Who am I?

### MATH AROUND US

Count how many holiday ornaments or decorations you have. Create as many addition sentences as you can for that number.
