Plants need the air to grow.

Point to AIR.

Activity:

Watch Video: [Observational Drawing](#)

Create an Observational Drawing of a plant

-Materials - plant, paper, crayons or markers

1. Have your child observe a plant and talk about what they see.
2. Ask your child what does a plant need to survive.
3. Have your child draw a picture of what they see.

Self Check:

Check your students responses

1. Was this lesson?

easy

just right

hard

2. Ask your child what a plant needs to grow?
