Counting In the Garden

May 5, 2020

Early Childhood Special Education Math

Lesson: April 2020

Learning Target:

Students will use one-to-one correspondence to count things found in a garden.

Let's Get Started: [Curious George Counts Flowers Game](#)

Practice:
Can you count the flower pots?

Practice:

How many lettuce plants do you see?

Practice:

How many green plants do you see?

Practice:

How many tulips are white? How many are pink?

Activity:

Point to the number of flowers in each picture.

Extension:

Sprouting Beans:

-Materials needed: resealable bag (snack or sandwich bag), water, tablespoon, tape, beans (any dry beans you have on hand, such as black, white, or kidney beans)

1. Place two or three beans in a resealable bag with 2 tablespoons of water.
2. Close up the bag and tape it to a window.
3. Observe the beans for several days to note changes such as swelling or sprouting.
4. Try different types of beans and note the differences.

Self Check:

Check your students responses

1. Was this lesson?

☐ Easy

☐ Just right

☐ Hard

2. Ask your child to count the flowers while going on a walk.
