Insects

May 05, 2020

Early Ed Science
Lesson: 05/05/2020

Learning Target:

Students will find and identify different types of insects.

Let's Get Started:

Watch Video: [Bugs Galore](#)

Practice

Some questions to ask your child about insects:

Where do they live?

What do they eat?

How are they all the same?

How many kinds of insects are there?

How big are bugs?

How many legs do they have?

Activity

Bug Walk

Materials needed: camera (phone), magnifying glass

1. Go for a nature walk and have your child find bugs.
2. Take a picture of all of the bugs you find.
3. Ask your child:
 - a. What bug do you see?
 - b. What do you notice about that bug?
 - c. How many legs do you see?
 - d. How does this bug move?

Another way to play is to draw pictures or paint bugs you have found. You can also use Play Doh or molding clay to make bugs.
