# Activity:

## Snack Time Counting!

**Materials needed:** Snack food (goldfish, animal crackers etc), paper

1. Divide paper into 4 rectangles and label 1, 2, 3, 4 (see picture).
2. Show your child how to place the correct number of items in each box.
3. Have your child try and help if needed.
4. If child is being successful you can add another piece of paper and label those boxes 5, 6, 7, 8 to expand their counting.

Another way to play is go on a nature walk with your child. While walking, gather a basket of items (multiple of each kind). Ex: rocks, leaves, sticks, etc. Count nature items with paper form snack counting.
