Tin Foil Water Play

May 11, 2020

Early Ed Science
Lesson: 05/11/2020

Learning Target:
Students will explore water play and tin foil.

Let's Get Started:
Watch Video: [The Water Song](#)

Practice:

Pretend to swim.

Pretend to swim high.

Pretend to swim low.

Activity:

Tin Foil Water Play

Materials needed: Tub for water, tin foil, measuring cups, funnels, bathtub toys, plastic bottles

1. Have your child explore with materials during water play.
2. Help your child crunch the tin foil into shapes and spirals to pour water over. Ask your child:
 - a. What does the water on the foil sound like?
 - b. Does the tin foil sink or float?
 - c. What happens when you pour water on the tin foil?

Another way to play is to take the water play outside on a warm day. Explore with foil and water outside.
