Early Education

Listening Skills

April 6, 2020

Pre-K Literacy
Lesson: 04/6/2020

Learning Target:

Students will follow multi-step directions to find objects in their house.

Let's Get Started:

Watch Video: [House Vocabulary](#)

Practice:

**Where would you
find this item?**

Bathroom

**Where would you
find this item?**

Kitchen

**Where would you
find this item?**

Bedroom

Activity:

Can you find it?

Materials needed: Various items from around your house (shoes, toys, clothes, dishes)

1. Place various items around the house
2. Ask your child to go find the item
 - a. Ex. Get the toothbrush from the bathroom and bring it back
3. Ask your child to put the item back and bring another one
 - a. Ex. Put the toothbrush back in the bathroom and bring me the pillow from the living room
4. Continue having your child find things or practice giving multi-step directions

Another way to play is ask your child to find another item from each of those areas of your house (ex: if you previously had them bring you a toothbrush, what's something else they can bring you from a bathroom?) Or ask them to name other items found in those rooms.
