

Science Virtual Lesson

Early Education

Sink or Float

April 17, 2020

Pre-K Science
Lesson: 04/17/2020

Learning Target:

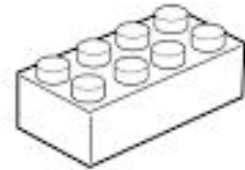

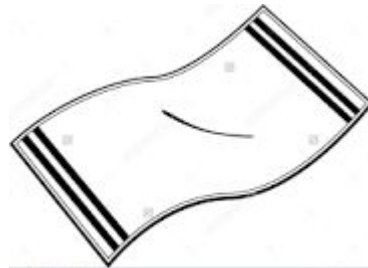

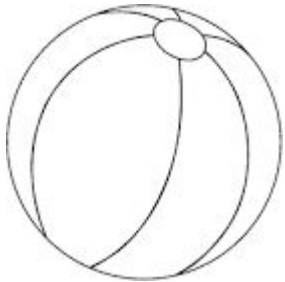

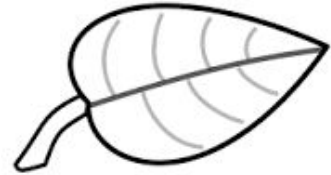

Students will make predictions and observations.

Let's Get Started:

Watch Video: [Sink or Float](#)

Practice:

Which items do you think will sink? Why?

Activity:

Sink or Float

Materials needed: Items around the house, bucket/tub/sink

1. Have your child gather items they think will sink or float.
2. Have your child sort the items into groups of things that will sink and things that will float.
3. Ask your child:
 - a. Which objects do you think will sink? Why?
 - b. Which objects do you think will float? Why?
4. Have your child to drop each item into the water.
5. Check your child's predictions.
6. See if your child can think of other objects that only float or that only sink.

Another way to conduct this experiment is to see if your child can think of other objects that only float or that only sink.
