

Math Virtual Learning

Early Education Patterns

April 22, 2020

Pre-K Math
Lesson: 04/22/2020

Learning Target:
Students will extend a repeating pattern.

Let's Get Started:
Watch Video: [Patty Shukla Patterns and Colors](#)

Practice: Point to the picture in the box that comes next in the pattern...

Activity:

Patterns At Home

Materials needed: objects around the house that look different

1. Find some objects to pattern with: cars, crayons, pencils, cereal, silverware
2. Choose 2 items that are different.
3. Lay the 2 items out in a repeating pattern
4. Ask your child:
 - a. What comes next in the pattern?
5. Have your child make their own pattern.

Another way to pattern: Have your child try to make an AABB pattern

EX. car, car, pencil, pencil, car, car, pencil, pencil. Start the pattern for them and see if they can continue.
