Magnet Prediction

April 22, 2020

Pre-K Science
Lesson: 04/22/2020

Learning Target:

Students will participate in recording detailed observations and communicate findings.

Let's Get Started:

Watch Video: [Magnet Song](#)

Activity:

Magnet Scientist

😊 yes	😞 no

Materials needed: paper, pencil, magnet, objects around the house

1. On a piece of paper, draw a line down the middle and write “Yes” on one side and “No” on the other.
2. Have your child find objects that will stick to the magnet around the house.
3. Have your child draw/write on the chart (under YES if it stuck, under NO if it didn't)
4. Ask your child:
 - a. What are some other things you think are magnetic?
 - b. What are things that stuck on the magnet?
 - c. Did you find more items that stuck to the magnet or more items that did not?

Another way to explore... take your magnet and chart outside!
