Water Cycle

April 28, 2020

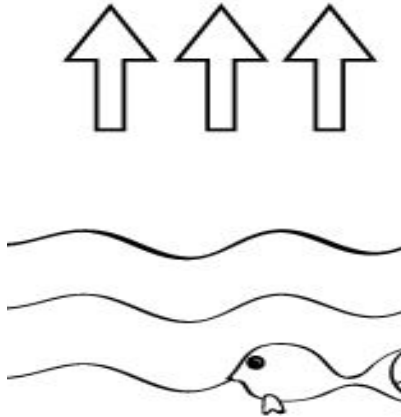

Pre-K Science
Lesson: 04/28/2020

Learning Target:
Students will describe the water cycle.

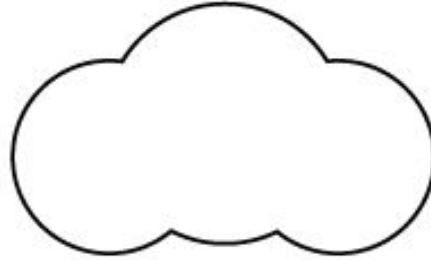

Let's Get Started:
Watch Video: [Jack Hartmann's The Water on the Earth Goes Round](#)

Practice:

Identify the stages of the water cycle

(evaporation)

(condensation)

(precipitation)

Activity

Water Cycle in a Bag

Materials needed: Ziploc baggie, tape, blue food coloring (optional), marker (optional), water

1. Have your child draw on the bag a sun, clouds, and water.
2. Add a small amount of water to the baggie.
3. Add a few drops of blue food coloring.
4. Hang on a sunny window.
5. Observe over the next day.
6. Ask your child:
 - a. What do you see happening?
 - b. Why is that happening?
 - c. Why are there blue drops on the top of the bag?
