

Math Virtual Learning

Early Education Measurement

April 30, 2020

Pre-K Math

Lesson: 04/30/2020

Learning Target:

Students will put their stuffed animals or toys in order from smallest to largest.

Let's Get Started:

Watch Video: [Measurement](#)

Practice:

Can you put the objects in order from smallest to largest?

Smallest

Largest

Medium

Activity:

Measurement of Objects

Materials needed: toys, or stuffed animals

1. Have your child collect 5-10 toys or stuffed animals.
2. Tell your child:
 - a. Put your toys in order from smallest to largest.
3. Have your child re-sort the toys from lightest to heaviest.
4. Repeat the activity with other items around the house.

Another way to measure is to have students use a common household item to measure and decide which object is bigger.
