

Math Virtual Learning

**Early Education**

**Dice Game**

May 04, 2020

Pre-K Math  
Lesson: 05/04/2020

**Learning Target:**

Students will show understanding of number and quantity.

**Let's Get Started:**

Watch Video: [Counting and Matching](#)

## Practice:

Count the objects and point to the correct number.

1 4 2

6 3 8

# Activity:

## Dice Counting Game

**Materials needed:** dice, something to count; cereal, buttons, pennies, small cars, legos

1. Have your child roll a dice and count the dots.
2. Have your child count out that many items.
3. Continue with game until you roll all the numbers.

Watch Video: [Roll and Count](#)

Another way to play is to play with two dice. Roll each dice and add the 2 numbers together to get the sum. Have them count out that many items.
