Tree Observational Drawing

May 04, 2020

Pre-K Science
Lesson: 05/04/2020

Learning Target:

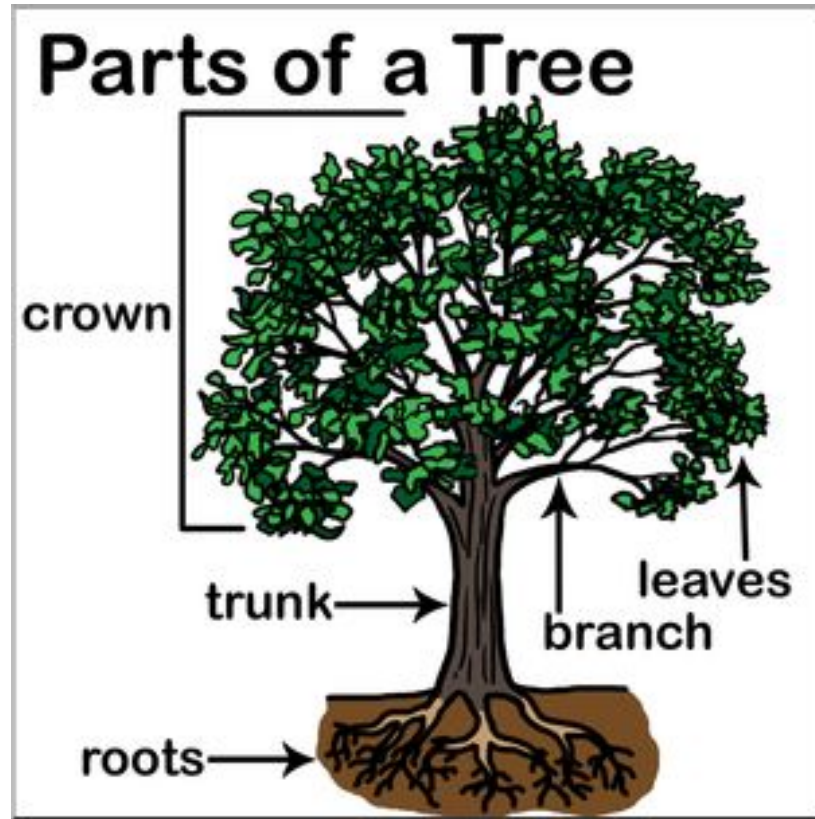

Students will learn about the parts of a tree.

Let's Get Started:

Watch Video: [Head Shoulders Knees and Toes for Trees!](#)

Practice:

Name the different parts of a tree you see.

Activity:

Observational Drawing of a Tree

Materials needed: Paper, writing utensil

1. Have your child find a tree to observe and draw.
2. Ask your child:
 - a. What do you notice about the trunk of the tree?
 - b. What shape is the leaf?
 - c. Are there any animals in the tree?
 - d. What animal might live in the tree?
3. Assist your child with pointing out and labeling the different parts of their tree.

Another way to explore would be to create the tree using play dough!
