

Math Virtual Learning

# Early Education

# Shapes

May 13, 2020

Pre-K Math  
Lesson: 05/13/2020

**Learning Target:**

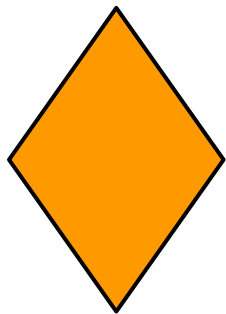

Students will recognize shapes as parts of other objects.

**Let's Get Started:**

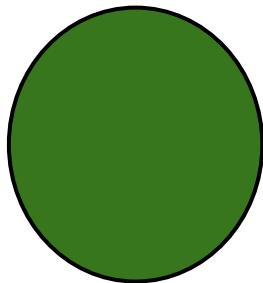

Watch Videos: [Shapes for Toddlers - Building a House](#)

# Practice:

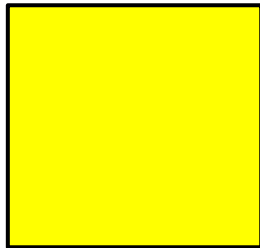

Name the following shapes.

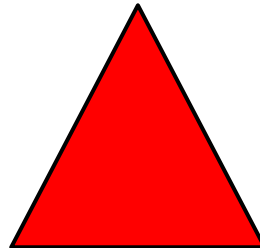

Rhombus

Circle

Square

Triangle

Rectangle

# Activity:

## Shape and Find

**Materials needed:** Materials from around the house

1. Have your child find various shapes from around the house. (Squares, circles, triangles, rectangles, and rhombus)
2. Ask your child:
  - a. What shapes can you use to make a house?
  - b. What shapes can you use to make a car?

Another way to play is to have your child create the shape by drawing or painting.
