

Math Virtual Learning

**Early Education**

**Counting Shapes**

May 14, 2020

Pre-K Math  
Lesson: 05/14/2020

**Learning Target:**

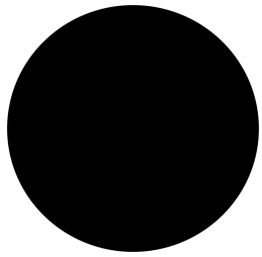

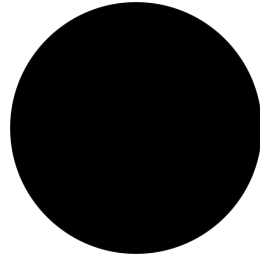

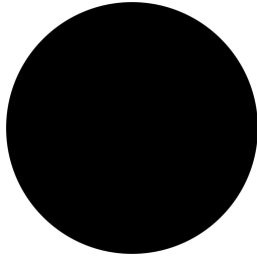

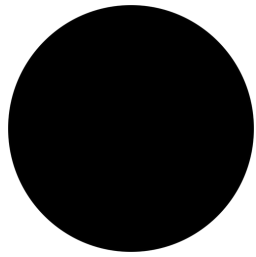

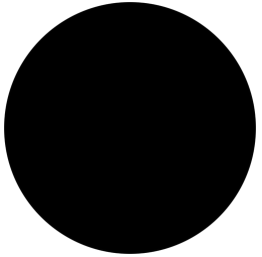

Students will count up to five objects using one-to-one correspondence.

**Let's Get Started:**

Watch Video: [Counting 1-10](#)

**Practice:**

How many circles are there?

# Activity:

## Shape Counting

**Materials needed: Paper, Scissors**

1. Have your child cut out 10 different shapes (circles, squares, hearts, triangles).
2. Line up a different amount of shapes and have your child count.
3. Ask your child:
  - a. How many are there?
4. Repeat the activity having your child count different amount of shapes.
