

Social Studies Virtual Learning
2nd Grade
Transportation and
Communication

April 17, 2020

2nd grade Social Studies April 17th

Learning Target:

Students will describe how transportation helps move products.

Background knowledge:

Students learned how to compare and contrast our community in the past and present in first grade. This included learning about how schools, land, and transportation have changed.

In third grade students will learn about human characteristics of Missouri which will include information about communication networks and transportation.

Warm Up:

**What are ways
To get goods
delivered to
your house ?**

How goods get delivered

The factory makes the product and transports it to the distribution center.

The distribution center sorts the products and transports the goods to the cargo airplane.

The cargo airplane delivers the boxes of products to the cities that ordered them.

The delivery truck picks up boxes and deliveries them to customers at their homes.

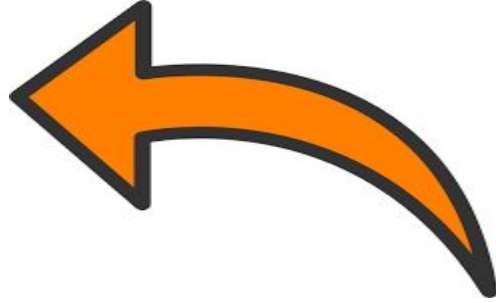

The packages arrive at your home for your enjoyment.

Practice

Tell a family member how goods are transported from the factory to your home. What are the steps?

You can do this with an adult!

With an adult practice using online instacart. Please don't order unless your adult approves and puts in the payment information. Children should not put in payment information.

More Practice

What job would you like to have in the delivery process? (Factory worker, truck driver, product sorter, delivery van driver) Tell a friend why.

Complete this page in the packet
