

Math Virtual Learning

**2nd Grade Addition and
Subtraction**

April 15, 2020

2nd Grade Math
Lesson: April 15, 2020

Learning Target:

Students will subtract 2 digit numbers with base ten blocks

Background: This is a review lesson from 2nd Grade

- Students learn different strategies to use when adding and subtracting within 100 in 1st grade.
- Students learn different strategies to use when adding and subtracting within 1,000 in 2nd grade.
- Students learn about place value in 1st quarter of 2nd grade.

Let's Get Started:

Watch Videos:

1. [BrainPop: Subtracting Without Regrouping](#)
2. [Subtraction with Base Ten Blocks](#)

Practice #1:

How many base ten blocks do see?

Helpful Hint:

- The **blue** ten rod equals 10.
- The **green** unit equals 1.

Practice #1:

How many base ten blocks do see?

68

6 tens = 60

8 ones = 8

$60+8=68$

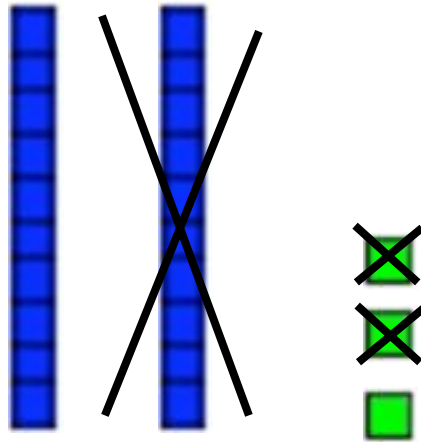

Practice #2:
Subtracting with base ten blocks

$$23 - 12 = \square$$

Practice #2:
Subtracting with base ten blocks

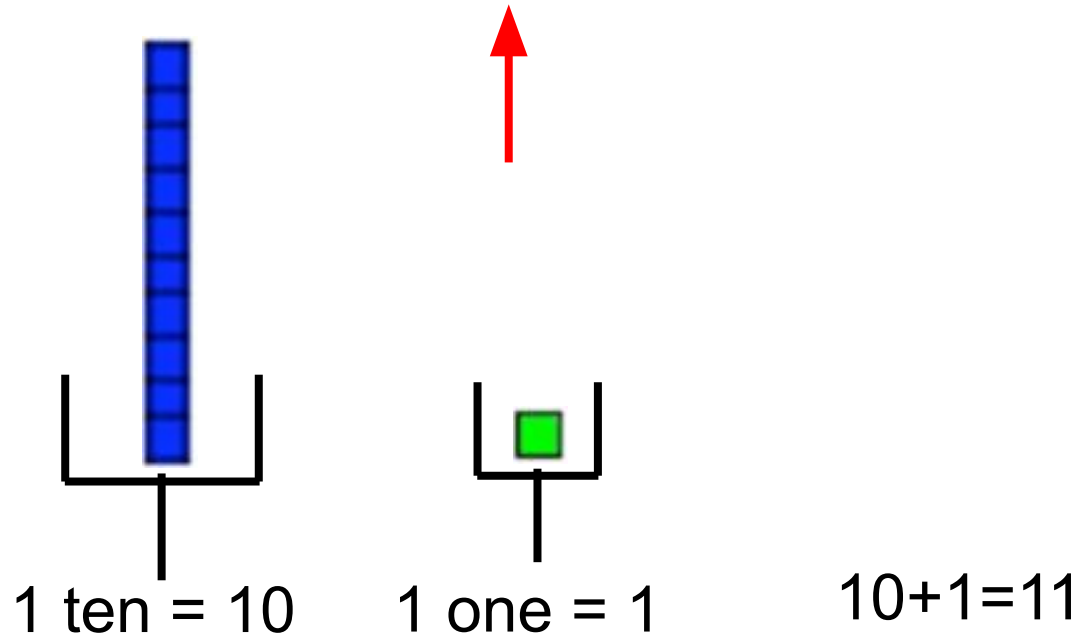

$$23 - 12 = \square$$

Practice #2:

Subtracting with base ten blocks

$$23 - 12 = \boxed{11}$$

Practice #3:

If I have 43 balloons and 11 of them fly away, how many do I have left?

43

Total balloons

Balloons that
flew away

Practice #3:

If I have 43 balloons and 11 of them fly away, how many do I have left?

Total balloons

11
Balloons flew
away

Practice #3:

If I have 43 balloons and 11 of them fly away how many do I have left?

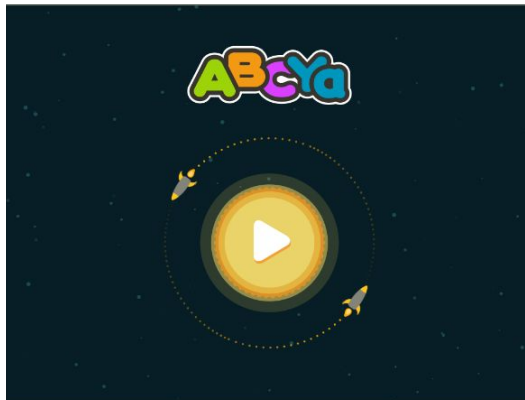

Total balloons
left = 32

MORE Practice on your own:
Go to this game: [Base Ten Fun](#)

1. Select PLAY, then select one of the three options, then select 10 as your units.
2. If you want to try a challenge, change your units to 100.

Practice:

Complete this page in your packet.

$$62 - 41 =$$

$$39 - 24 =$$

Use base ten blocks
to show your work

Self Check:

Go tell someone in your home your answers.

1. Was this lesson?

- easy,
- just right
- hard

2. Try this problem $58 - 21 =$
