# Conflict Resolution is important because:

- Everyone has a different way at looking at things
- We can think differently and still respect one another
- It does not mean I am not valued or respected because we think differently
- It is ok to disagree (respectfully)
- It's important to learn how to respect one another even when we can't agree.

# HOW IT WORKS:

---

- In pairs, you will each have a set of matching legos
- You will need to divide these equally so you have the exact same legos
- The person with the earliest birthday will go first.
- Give specific instructions on where to place the legos.
- After 5 minutes look and see how you did then switch!

## HINTS:

- Use directional words
- Be nice and polite
- Ask clarifying questions (do you understand?, what side of the board?, horizontal/perpendicular?)
- Cheer for your partner
- Don't be afraid to tell your partner to slow down or you don't get it!

# Team Work Reflection

---

## Partners

- How did it go?
- What were some things that made it hard?
- What made it easy?
- Is listening important? Why?
- If you did this again, what would you do differently?
- What are the 3 C's we mentioned earlier?

# Self Check: Go tell someone in your home your answers:
