

7th Grade Science Day 2

Directions

1. Record your weather data using the document template (linked in day 1) on your own sheet of paper. Remember to only record temperature, total precipitation, humidity, and wind speed.
[Weather in Independence, MO](#)
2. Watch the included link [Hurricane in a Bowl](#).
3. Write a 3-5 sentence summary of what you watched and read it to someone at your home.
