College Prep Algebra
Lesson: April 24, 2020

Objective/Learning Target:
Determine your knowledge of
exponential and logarithm
functions

Unit Review: Use the calculator linked here.

Scientific Calculator

The following links are for Quizizz.

- You are not required to sign in or make an account.
- Once at the quizizz, you can turn off the timer
- If you answer incorrectly, the quizizz will show you the correct answer.
- The dates following the link show you which lessons you can return to for re-learning purposes

[Logarithms](#)—April 10, 13, 14, 15, 20, 21

[Exponentials](#)—April 16, 17

7+	2	2-	
	3-		2÷
1	6×		
3+		7+	

To develop your numeracy skills, click on the given links.

The images may look scary, but the puzzles have lots of levels and are quite easy to learn!

The screenshot displays the GregTangMath.com website interface for the Kakooma game. At the top, the site name "GregTangMath.com" is visible, along with navigation tabs for "Teaching Tips", "Kakooma", "Books", "Games", "Materials", and "About". A purple navigation bar contains icons for a lightbulb, a book, and a game controller. A blue timer in the top right corner shows "0:45.1".

The main game area features a central blue pentagon surrounded by several white pentagons, each containing numbers. A large white pentagon with the number "7" is positioned at the top. The numbers in the surrounding pentagons include 5, 12, 11, 9, 4, 16, 12, 20, 8, 17, 10, 8, 7, 11, 6, 19, 4, 2, 4, 10, 11, 5, 8, 13, 5, 16, 10, 6, 4, and 13. Some numbers are circled in blue.

On the left side, there is a vertical menu with a "Kakooma" header and a "K+" logo. Below the logo, there are buttons for "Easy" and "Hard" difficulty levels. A list of numbers from "Four" to "Nine" is shown, each with a corresponding pentagon icon. The "Five" option is highlighted in black. At the bottom of the menu, there are buttons for "New Game" and "Help".

In the bottom right corner, there is a cartoon illustration of a grey snake with its mouth open, showing its tongue.
