Public Safety 10-12

May 4, 2020

Public Safety
Lesson: May 4, 2020

Objective/Learning Target:
Fire Prevention
How can I do my part?

Warm Up: What can we do to prevent fires?

What are the top five causes of household fires?

1.

2.

3.

4.

5.

What do you think?

According to the **National Fire Protection Association**, these are the top five causes of home fires.

- 1. Cooking**-usually unattended heating of items
- 2. Heating**-heating equipment too close to flammable items.
- 3. Electrical**-misuse of or faulty electrical equipment.
- 4. Smoking**-careless or unattended smoking devices.
- 5. Candles**-left unattended or too close to flammable items.

How did you do? Did you get all five?

You can never be too cautious when it comes to the steps you take towards protecting your home and your loved ones inside it. Learn about home safety and find out what you can do to make your home as safe as possible with help from a certified firefighter in this free video series.
