## [Police Use Of Force - Explained/Discussed](#)

There is currently a war being waged on police officers, fueled by public misunderstanding of an officer's role and training. Armed with 15 years of service dedicated to saving lives, retired Denver Police Sergeant, Steve Warneke has won two Emmy Awards and four Edward R Murrow Awards throughout his career for his work communicating cops' stories to the community, as a supervisor on the media relations team and as Denver's first openly gay radio talk show host. He continues on his mission to heal the broken relationship between citizens and cops by publishing his first book, "From Boy To Blue", his next effort to give citizens a behind the scenes understanding into cops' behavior and practices. Steve hopes that by opening up across America, he can help make encounters between citizens and police safer for everyone.

# Reflection

*What have been some of the greatest weaknesses of Police Dept. connecting to their communities?*

*What is their greatest struggles to change this problem?*

*How effective do you believe these type of tactics will be?*

**Remembering these questions, how do they affect the public perception of the police use of force?**
