# Portraits & Lighting Project

April 20th, 2020

High School Advanced Photography  
Lesson: Portrait/Lighting project  
April 20

**Objective/Learning Target:**

To have an understanding of different lighting with  
formal/posed portraits

## Portraits and Lighting Project:

Day 1

Read the article online dealing with light and photography

Portrait and lighting

**Bell Ringer:** What type of light do you enjoy shooting in?

**Objective:** To have an understanding of different lighting with formal/posed portraits

**Task #1:** Read the article in the above link *and look at all the images*. (about 15-20 min read)

### Questions to ask yourself:

Do you have adequate light where you live?

Do you have someone who would model/pose for you?

If no, could you use a thing, such as a stuffed animal?

Do you think you could do portraits where you live?

What challenges would there be?

How can you overcome any of those challenges?

**Task #2:** Research online, or whatever resources you have access to, more lighting with portrait photography. Possible site you can view:

6 portrait lighting features

**Task #3:** What types of light in portraits shots do you see and like on social media? Follow a famous portrait photographer on social media if you have access to that. Example:
