High School Advanced Photography

Lesson: Photo Challenge

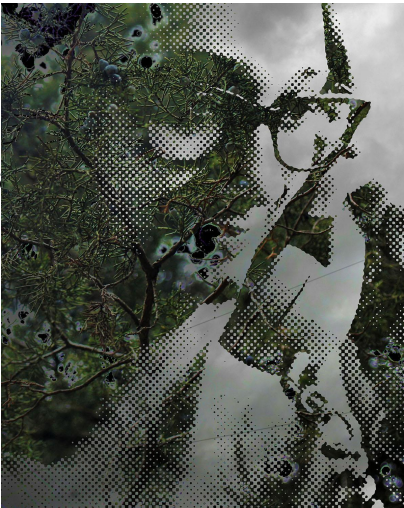

May 21

Objective/Learning Target:

To show an understanding of creative composition with 4-5 randomly selected subject matter, as well as picture taking and editing skills on Bazaar app.

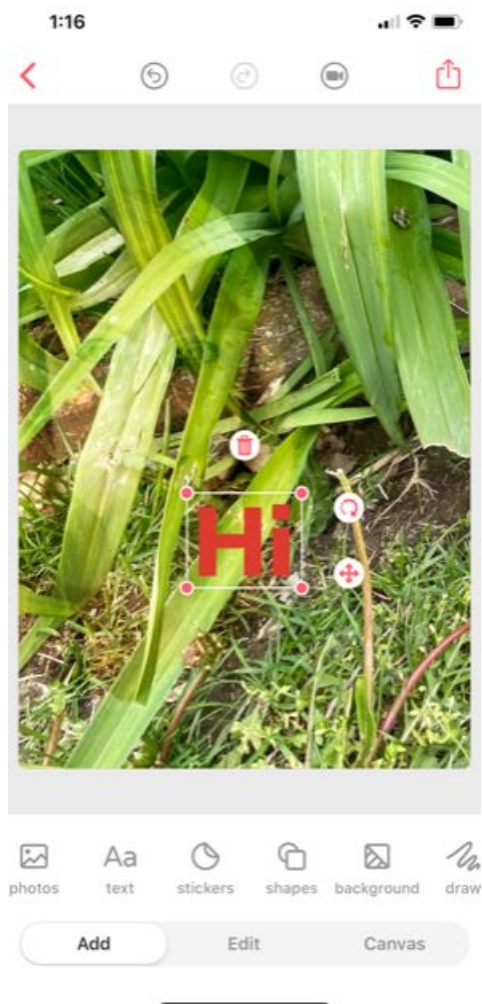

Photo Challenge:

Day 4 Experimenting with Bazaart (or other app) Photo cred: M. Woods

Bell Ringer: Open up the Bazaart app and watch their tutorial

Task #1: Experiment in the app with a random photo. Note that some of the features require you spend money to upgrade, you don't need to do that. Navigate the 3 option buttons to see the different features offered.

Task #2: Practice further on a random photo until you are comfortable. Try practicing selecting out a piece of an image with the eraser tool or scissors (under EDITS). Do you notice that the background goes transparent???

Task #3: Now try adding a photo. Click on the photo icon (under ADD), photo icon is furthest to the left. Now try moving it "back" behind the cut out image (a feature under EDIT).

You will now see your cut out image on top of the image added. To see your layers go to CANVAS option and click on Layers.

Go to 'Blending" (EDITS) to check out some of their blending modes.

Task #4: What do you think of the features? Do they seem similar to Photoshop or other features of other apps or programs??
