High School Advanced Photography

Lesson: Photo Challenge

May 22

Objective/Learning Target:

To show an understanding of creative composition with 4-5 randomly selected subject matter, as well as picture taking and editing skills on Bazaar app.

Photo Challenge:

Day 5 Put all 4-5 of your selected images into a composition

Bell Ringer: How did practice on the app go??? Feeling more comfortable with the Bazaart features?

Task #1: Review each of the 3 Bazaart windows 1. Add, 2. Edit, 3. Canvas

*** The red export button is top right-use that to save any creations or send for immediate upload to social media etc....

Task #2: Combine all 4-5 of your selected images in the app to form a composition. You may use any app or software, Bazaart was just a new option.

Task #3: Save your composition when done and/or post to social media.

Task #4: Questions to evaluate yourself:

What went well for you on this project? Explain using photographer vocabulary.

What would you do over if you had the time? Explain either way your answer.

Would you use this app again? Or try a new one?

If you could do this in Photoshop, what differences might there be in the final work?

Photo credit: K. Campbell

This is my final composition using the chairs, flowers, face and sky.....
I used Photoshop because that is what I have and I like designs.
