READERS' CHALLENGE

Upload your images to photoshopcreative.co.uk

We challenged you with these

In Issue 143, we challenged you to get creative with these four images. You were allowed to use any or all of the pictures, and whatever other resources you chose. Here's what you created.

Challenge entries

The best entries and overall challenge winner

1 Daryl Frakes
Sunflower
A simple but powerful idea came to mind when I saw these images. With a few filters and some masking, the powder image was incorporated into the subject's eye, with the sunflower laid out behind.

2 Alexandre Perez
Garden of Sunflowers
I worked on the lighting and the model's skin in this picture. The sunflowers are used in the field behind the model, the deckchairs are placed in the field and the powder texture is used on the roofs.

3 Andrew Di Maggio
Fade Out
I really wanted to challenge myself and just keep to the four supplied images. Clean and accurate masking was a big part of creating this image. I also used adjustment layers and Lused Warp a lot.

4 Antonieta Pedrosa
Dusk
This composition was made with a lot of blend modes and layer masks. All four images were weaved into the image and the sunflowers were used on the subject's clothes and her hair.
