

Art Virtual Learning

11th-12th /College

All Together Now

“Final Project”

Day 5/10

May 15, 2020

11th-12th /College Photography

Lesson: May 15

K. Campbell

Objective/Learning Target:

Objective: Student will photograph their best 5 favorite subject matter (same item needs to be seen 5 different ways) and 5 least favorite subject matter (same item needs to be seen 5 different ways) shots are displaying that one thing from different view/vantage points. Any light source or lens may be used. Cellphone or regular cameras may be used or combined.

Student may edit any way they wish. There will also be 1 photo of whatever subject matter/style of your choosing. Student is displaying all knowledge gained from previous lessons with regards to proper exposure, focus, composition, use of light, use of lenses, motion and “seeing” for visual appeal to a viewer. **“Show Me What You’ve Got”**

Week 11-15 concentrate on 5 favorite subject matter shots.

5 favorite subject matter shots Day

K. Campbell

Bell Ringer: Decide on your 5 best favorite subject matter.

Activities:

Task #1: Why are these 5 your favorites?

Same/favorite subject matter displayed 5 different ways: There are 5 images of a similar/same/your favorite subject matter shown in a different manner/point of view. Images show creativity in regards to how taken with solid composition for visual appeal to the viewer. *You may use any type of lighting or lenses.*

Task #2: Finish any editing on your 5 favorite subject matter shots.

Task #3: Put all 5 favorites in a slide show or on a page. Evaluate your strengths in each photo. What composition elements are strong in each image?
