11th-12th /College

Trick Photography

Sometimes called Trick Scale photograph
"Seeing Unit Continued"

Day 5

May 8, 2020

11th-12th/College Photography

Lesson: May 8

K. Campbell

Objective/Learning Target: Continuing with Seeing concept, student will create 3 photo images that showcase Trick Scale to the viewer with excellent composition and editing. This will further enhance their skills at Seeing like a photographer. Share your favorite Trick Photography image on social media #isddoesart

Trick Scale

Day 5

Conclusion

Bell Ringer: Which was your favorite trick photo? Are you able to post it on social media? Remember part of being a photographer is visually sharing with a viewer, social media is a great platform for that.

Activities:

Task #1: Post your favorite of the 3 images on social media, see what kind of feedback you get. #isddoesart Photo credit: K. Campbell & Roland.

Task #2: Final evaluations: ask yourself these questions.

What were any challenges you had on photographing Trick Scale? What went well? Any focusing trouble?

Did you post your favorite Trick Scale image to Social Media? What made this image your favorite? Which one was your least favorite? Why?

****Dual Credit UCM students will be working on a different lesson-see google classroom but Trick Scale is one of the components to that lesson so use this as reference in that category if needed.**

Trick Scale Photography Project

Name _____

Objective: Continuing with Seeing concept, student will create 3 photo images that showcase Trick Scale to the viewer with excellent composition and editing.

Requirements: The images should display appropriate exposure, composition, etc...for the selected subject. Images may be from a cellphone or camera. Photos can not have anything copy and pasted in to display Trick Scale. Trick Scale should be done through the camera lens. Editing is limited to cropping and exposure or any other creativity that does not interfere with the concept of Trick Scale.

| Criteria | 2pts | 5pts | 10pts |
|---|----------|------------|------------|
| | Emerging | Developing | Proficient |
| Trick Scale #1 Random -subject matter is your choice, Trick Scale is creative and noticeable to viewer. | | | |
| Trick Scale #2 Random -subject matter is your choice, Trick Scale is creative and noticeable to viewer. | | | |
| Trick Scale #3 Random -subject matter is your choice, Trick Scale is creative and noticeable to viewer. | | | |
| Skills: Composition is solid on all images. Editing is limited to filters/colors, exposure, gentle cropping, and it is obvious trick scale is accomplished through the lens. | | | |
| Answer the Questions below at a college level response for 10 pts and posted your favorite Trick Scale image to Twitter @karenmcamp #trickscalefav | | | |

What were any challenges you had on photographing Trick Scale? What went well? Explain 2+Sentences.

Did you post your favorite Trick Scale image to Twitter? @karenmcamp? With the #trickscalefav? What made this image your favorite? Which one was your least favorite? Why? Explain 2+ sentences.
