

Meme Project Tuesday April 7th

*“A **meme** is a concept or behavior that spreads from person to person. **Examples of memes** include beliefs, fashions, stories, and phrases.”*

Bell ringer: What theme for your first Meme do you think will work for you?

Objective: Begin creating your first meme

Task 1 Decide on theme for first meme

Task 2 Start taking photos on your cell phone/camera. For each subject matter take several shots of different points of view.

Task 3 Decide which image works best for what you have in mind.

Task 4 Edit the photo on whatever app you have/like from before, or on your computer if you are using your camera and have an editing feature on your laptop.
(I edited the photo on my editing default on my cellphone and then used Snapseed app to edit further and put on the words) Do what works for you.

Notes: See score guide posted April 6th and/or in google classroom

Resources: Any appropriate meme you find on social media platform or web search for inspiration, do not copy.
