**Objective/Learning Target:**

Throughout this unit, students will develop a drawing with at least fifty objects.

Within the drawing, they will also develop a background. The students will be able to use materials such as pencils, erasers, Sharpies/pens, and various coloring tools. They will be able to utilize their ability to create detail, as well as create their own unique design.

## Bell Ringer:

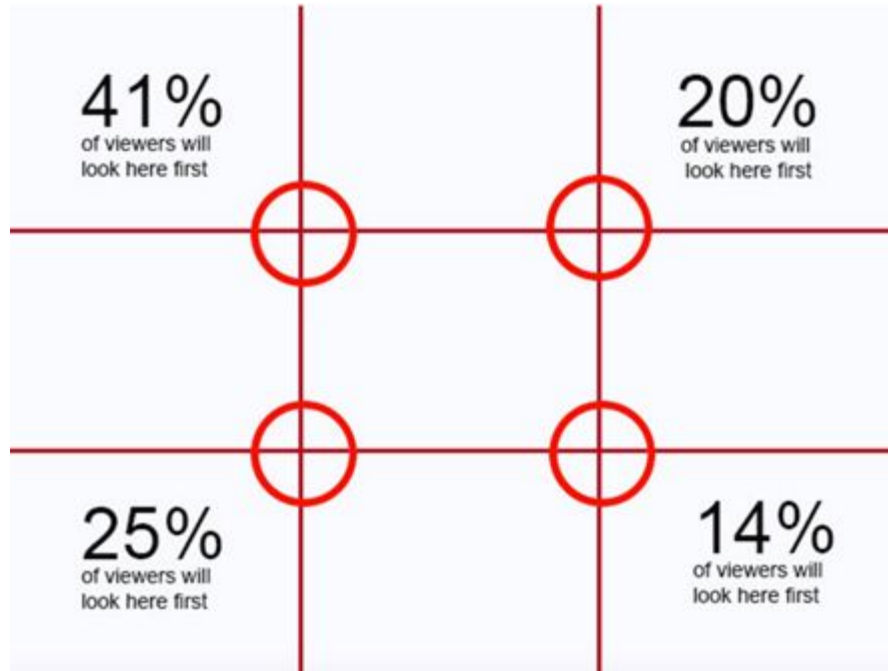

Grab your list, your drawing, and your materials used yesterday. Do you need to add any new objects to your list? Make sure that you have thirty-nine objects crossed off your paper, as those are the ones you have already drawn. Pick out the last eleven pieces from your list.

## Terminology:

- **Rule of Thirds**: One of the fundamentals of art, the **Rule of Thirds** is a technique designed to help artists and photographers build drama and interest in a piece. The rule states that a piece should be divided into nine squares of equal size, with two horizontal lines intersecting two vertical lines.

## Examples Used in Film:

## Lesson:

- On your list, pick the **LAST** eleven objects to draw.
- Start drawing these eleven items on the paper.
  - Use overlapping to create depth, as well as fill the space.
- Remember to pencil them in, outline with Sharpie or pen, and then add color with whatever materials you have available.
  - Can add shading instead if no colors.
- Once you have everything drawn/colored, you can add a simple background to fill in the rest of the space.
  - Try to eliminate white space by adding patterns or more objects, even a solid color.
