## Drawing II

### Lesson: Loo Roll Art Challenge

May 14, 2020

### **Objective/Learning Target:**

Students will choose from a range of materials and methods of contemporary artistic practices to plan works of art and design.

Students will collect found surfaces to challenge their drawing techniques and creativity.

Students will create an artwork on new found materials around their homes. Students can share work on social media.

## **Let's get started:**

**If you haven't watched this video of an artist working on [Schiele's 'The Artist's Wife'](#) please watch. This is an example in action of an artist study. This is a great way to experiment with observational, technical, and aesthetic approaches that may differ or may be similar to your own way of drawing.**

**Consider working with an artist reference or if you want to explore your own drawing techniques keep in mind an artist and their approaches that you'd like to achieve.**

## Activity Lesson:

Today, you will continue sketching, and can move on to shading. Remember all the different shading techniques you could use: hatching, cross-hatching, stippling, scumbling, or other mark making techniques.

### Tips and Hints:

- 1.) You will need: Loo roll, basic drawing utensils, and possibly an image as reference.
- 2.) If you are struggling for inspiration then you could find an image on the internet or in a book to copy. Once you've got an image in mind, you can draw/paint it straight on to the loo roll or you could draw a light / rough guide to what you want to draw before starting.
3. Don't forget this is a 3D piece of art, your drawing should stretch at least  $\frac{2}{3}$  of the way around, if not all the way around! Consider your full composition before you start.
4. Don't forget to be resourceful... even with a basic pen you can apply tone and shade with shading techniques. If you want to paint but don't have any paints, you could use tea, or coffee for staining. Even food coloring can be used.
