

Graphic Design II

Unit Name: Package Redesign

Date: 5/14/2020 - 5/22/2020

Mrs. Messick, Mr. Bertoncin, Mr. Hopke, Mr. Stacy

Objective: Students will choose a household object and do a redesign of the product, logo, and packaging to create a final project. This project will be completed over a series of class periods/days. Students will start with sketching out ideas and looking around their home to find products to use for this project. They will then develop a final logo, and look towards unique packaging ideas.

Requirements: Pencil, Paper, Ruler or Straight Edge (the side of a book, or folder can work), glue, tape, colored pencils, markers, or paints.

Check for Understanding:

Criteria 1: Did the student follow directions specific to assignment?

Criteria 2: Did the student use creative efforts (Thinking outside of the box)?

Criteria 3: Did the student use effort: took time to develop idea & complete project (Didn't rush) ?

Criteria 4: Craftsmanship: Neat, Clean, & Complete? Skillful use of the art tools and media?

Criteria 5: Student Reflection: Choose 2 prompts below and answer in 2 complete sentences.

1. What would you change with this work if you had a chance to do this piece over again?
2. What is one part of your artwork that you want people to notice when they look at your work?
3. How does your finished artwork tell a story?
4. Did you learn new techniques or processes as part of the work for this project?
5. Did you pick a material or technique that was new or different over something that was familiar?
6. I want to know more about...
7. I'm most proud of...
8. The most challenging thing was...
9. Next time I will remember to...
10. Now I know...

Graphic Design II / May 22, 2020

Lesson Name: Package Redesign

Objective: (Day 7) Today you will continue to design the packaging for your product. You can design a new box, specialized label for an already developed container, or build a totally new type of container or package for your product. There are hundreds of YouTube videos on various ways to create packaging for a product. You will need to identify nutrition information, or chemical components, pricing barcode, the logo, and the parent company of the product. You may include additional graphics to make the packaging appealing. Ideas for materials are wrapping paper, cardboard, copy paper, styrofoam, plastic container, glass jar, or a metal can. GET CREATIVE. Come up with 1 prototype today for a total of 2 options by the end of today. Share your work on social media or with your teacher.

Requirements: Pencil, Paper, Ruler or Straight Edge (the side of a book, or folder can work), glue, tape, cardboard, colored pencils, markers, or paints.
