Graphic Design II:
Hand Drawn Typography
April 8, 2020

Learning Target:
Students Will Explore Ways to Use Hand Drawn Typography and Then Put It to Use

Let’s Get Started:

Write your first name three times.

Wait, that sounds simple? OK, you’re right.

Write/draw out your name three different ways and try to be creative. We will come back to these at the end of the lesson.

Review: Key Terminology For This Lesson

Typography is the art and technique of arranging type to make written language legible, readable, and appealing when displayed. ... The term **typography** is also applied to the style, arrangement, and appearance of the letters, numbers, and symbols created by the process.

Hand Drawn Art Examples

The next few pages will include a variety of examples. A complete collection of 40 great examples can be found here.

Think of these things as you look at the examples:

1. What makes this typography unique?
2. Do you feel it gives off the mood/purpose it is going for?
3. How would or could you do something similar?

Drawing By Hand Practice

Go back to your names you drew out quickly a little earlier.

Now that you have seen some examples and read a little about hand drawing letters. Please write/draw/sketch your name out again three times.

Take a little more time, be creative, and see you you can improve what you did earlier.

Extra Practice: Now try the same activity with your last name.
