Objective: (Day 3) Today you have complete creative control over your project. You will take your gathered supplies and play around with composition and design. Your goal is to express your views on the current climate of life under Covid-19. Your composition needs to be clear and readable. The viewer should easily understand the issue and the artist's viewpoint on the issue. Do not glue anything down today, instead play with your materials to arrange and rearrange to make a good composition. You may find that you want to add more text or images to make the composition more interesting. You may also find that you need to further trim or cut images as well. Take a picture of the layout for today.
