

Painting I Virtual Learning

Beyond the Border

Part I

April 30, 2020

9-12th/Painting I

Objective/Learning Target:

Students will create a 2D mixed media art piece that explores the expansion of the main subject matter. It will branch into the outer rectangle extending into the border. The main subject should remain in color, but everything else turns black & white outside the main rectangle.

Bell Ringer: Find art materials that you may have around your house. Here is a link for possible ideas if you do not have painting items at home.

https://docs.google.com/presentation/d/1qZSVXmoyqwZSUOEJSJ3ZYew9vbC2SEN9Fd6rJTmyaws/edit#slide=id.g7277dfb8ca_0_0

Inspiration: We will look at some drawing tutorials of birds and fish.

Materials: Any paint that you prefer, Paper, Brushes if you have these available. This can easily be done with a pen or pencil.

Procedure:

1. Choose your subject matter (suggestions: butterflies, insects (colorful), birds, sea animals-with flowing fins or tentacles, flowers, candy (spilled candy!)).
2. Draw some rough thumbnails sketches of your design. Place your focal point in the Rule of Thirds.
3. When you are ready to begin draw an interior rectangle by measuring in from each side. Creatively & selectively expand part of your design onto the outside border.
4. Draw your main subject matter in lightly.
5. Add your background extending **ONLY PART** of it to the edges of the paper. (visually, I recommend at least 3 sides)
5. We will finish the lesson tomorrow after you have time to brainstorm, practice and develop a composition.

Here are some examples and tutorials to get you motivated.

Rule of Thirds
