Painting II
"Looking Closer"
Artwork Critique
Grades 9-12

May 4th, 2020

Objective/Learning Target:
The student will increase his/her visual literacy by analyzing specific aspects of a provided painting.

Bell Ringer
In what ways does culture influence your life? How does culture influence your perspective? Do you find aspects of this perspective showing up in your painting? In what ways?

Lesson/Activity

Because there cannot be an expectation that all students create an actual painted piece of artwork, this lesson gives students the opportunity to look at and analyze pieces that could have been presented in classes at school.

IF you have access to painting supplies at home, hopefully the examples shown in the lessons will be a source of inspiration for your own work.

Student Practice

Look at the provided example(s) & answer the following questions.
