

**Sculpting 1**  
**Creative Challenge**  
**Friday, May 15, 2020**  
**Bertoncin, Flinton, Manco**

**Day Three: Creation, Reflection**

**Objective/Learning Target:** After completing this activity, you will be familiar with various construction and styles of puppets, and how to create additions and features.

**Requirements:** Materials to be used are limitless. The type of puppet you choose to create may dictate what materials you will need.

**Instructions:** Using materials you have, create and decorate your puppet. Embellish as much as you can, don't just stop at basic facial features. Be creative. If you wish, and have the resources, create a second puppet.

**Reflection:** What was the biggest challenge you faced in creating the puppet?  
What else would you add to your puppet, and why?  
If you were to create another puppet, what would you do different?
