

## Sculpting 1

Unit Name: Origami

Date: 4/16/2020

Mr. Bertoncin, Mrs. Flinton, Mrs. Manco

**Objective:** Use paper as a constructive medium to build a bowl and find ways to decorate it.

**Requirements:** Paper, glue, water, plastic (plastic wrap, shopping bag, or trash bag), tape, bowl, and possibly flour, a balloon, or paint (depending on what you choose to create).

**Bell Ringer:** How will you decorate your finished bowl? If you don't already have ideas, you should research some and consider what you have available. If you don't have paint, strong coffee or tea can create an antiqued look.

### Lesson/Activity:

1. You will want to add another couple of layers to your bowl. Remember to add strips in a weave pattern (opposite directions), and narrower strip work better than thick strips. Look for weaker areas especially. Lightly pressing on the bowl, you will be able to feel weaker areas.
2. When you are satisfied with your work, allow it to dry again overnight.

### Resources and Supporting Materials:

[Toilet Paper](#) (this link contains text in German, but is EASY to understand, and is a simple solution)  
[easy tutorial](#) This link includes some interesting decorating ideas

### Check for Understanding:

- What advantages does the glue mixture offer versus the flour?
- What advantages do various papers offer?
- Could you locate thinner or weaker areas?
