

Sculpting 1

Unit Name: Mask Me COVID-19 style Challenge

Date: Wednesday April 29th (Day 3)

Mr. Bertoncin, Mrs. Flinton, Mrs. Manco

Objective:

- Students will analyze the social purpose and significance of masks.
- Students will become aware of the purposes of medical masks, various materials used regarding form and function.
- Students will be able to represent their identities visually through making a mask.
- Students will explore using available materials in the construction of masks.
- Students will design a mask using examples for inspiration, changing the meaning or conveying a special message about the times in which we live.
- Students will exhibit craftsmanship in forming and finishing their mask.
- Students will document, display and critique their work.

Requirements: Various recycled/found materials, fabric, paper, cardboard, paint, brushes, markers, foil, pipe cleaners, puff balls, scissors, pencils, a camera for documenting work, various cutting tools, glue or tape.

Lesson Activity:

Our rapidly changing world is uncovering new challenges every day as well as new opportunities to help and support one another in our neighborhoods and communities. We are currently experiencing a shortage of protective gear. What kind of creative and wearable solution can you create?

1. Brainstorm and create a sketch of your 3D (not 2D or flat) protective mask. Consider making a statement, sending a message, adding humor, or make it meaningful. These are ideas you might include on the inside of your mask:

What aspects of your identity would you like to present to others? Biographical information? Hopes and fears?

Likes and dislikes? Experiences and accomplishments?

2. Use ANY materials, techniques, styles and size/scale. **Your mask MUST be wearable by you!**
3. Create a template of your face using paper or fabric. Don't use an existing mask as a base because they are in short supply.

Check for Understanding:

Does your mask fit comfortably on you face comfortably?

Did you use a variety of innovative materials? Do you have everything you need?

Did you use a template as a base for your design?

Supporting Materials:
