Day Two: Ideas, Creation

Objective/Learning Target: After completing this activity, you will be familiar with various construction and styles of puppets, and how to create additions and features.

Requirements: Materials to be used are limitless. The type of puppet you choose to create may dictate what materials you will need.

Bellringer/Warm Up: Time yourself for three minutes. In that three minutes, make a list of as many creatures and characters that you can (skunk, knight, clown, sheep, dinosaur...). This will get your creative mind going and help you decide what your puppet will become.

Instructions: There are multiple resources for creating puppets, and a variety of puppets to create. Read [this short piece](#) on types of puppets, then view the following options for creating puppets from materials you might have at home.

[Option 1](#)

[Option 2](#)

[Option 3](#)

[Option 4](#)

Decide which option you will create, or find one on your own. Keep in mind not only what materials you might have, but also what the puppet will eventually be, and how you will decorate it. Begin collecting materials.
