

**Sculpting 1**  
**Surface Design**  
Thursday, May 21, 2020  
Bertoncin, Flinton, Manco

**Day Two: Creation/Solutions/Share**

**Objective/Learning Target:** After completing this activity, you will better understand how to decorate a surface of a vessel, and how the shape of the vessel might help decide the best pattern or texture.

**Requirements:** At least three or four plain sheets of paper (any color, but no patterns. Solid color only), and scissors. Phone or digital camera.

**Instructions:** Look at [this presentation](#). Yesterday you should have done the first two steps. Today you will use patterns that you find around your home, or outside, to create designs within the silhouettes you created. Take your time, get creative, and have fun with this. When finished, share your favorites using #isddoesart.
