

Sculpting 1
Creative Challenge
Tuesday, May 12, 2020
Bertoncin, Flinton, Manco

Day Two: Creation

Objective/Learning Target: After completing this activity, you will have practiced creative problem-solving and produced a solution unlike anyone else's solution to the same challenge.

Requirements: Materials to be used are limitless, but the result must be three-dimensional.

Instructions: Using whatever materials you can find at home, create a three-dimensional fish. Low relief (like the heads found on a coin) counts as three-dimensional. Be creative in your choice of materials. Consider difficulty of use, permanence, humor, and how easily the result will be recognizable as a fish. You may decide to combine materials, but bonus points to limiting the amount of materials you will use. When finished, share your result using #isddoesart. Have fun!
