

Sculpting 1 Creative Challenge Wednesday, May 13, 2020 Bertoncin, Flinton, Manco

Day One: Introduction, Investigation

Objective/Learning Target: After completing this activity, you will be familiar with various construction and styles of puppets, and how to create additions and features.

Requirements: A square of paper, and materials to decorate (markers, colored pencils, crayons, etc.). You may want to choose colored paper, decorate it before folding, or wait to decorate after folding.

Bellringer/Warm Up: Watch [this video](#) featuring the Muppets. As you watch the various muppets, consider how features like eyes, hair, hats, ears, etc. were created and placed. You will probably want to watch the video a second time to take this into consideration. The video is pretty entertaining, and chances are you'll get caught up watching for the enjoyment of it.

Instructions: You will be creating a simple puppet based on the origami form in [this video](#). You will need a square of paper (I would suggest 9x9 inches or larger). Instructions on how you can convert this to a puppet [can be found here](#).
