

Sculpting 2
Cardboard Houses
Friday, May 22 2020
Bertoncin, Flinton, Manco

Day Three: Creation

Objective/Learning Target:

Students will design and construct sculptures from recycled corrugated cardboard. Students will explore constructing a variety of forms, problem-solving and risk-taking.

Requirements:

Cardboard, ruler, tape, utility knife, scissors, glue, paper, cereal boxes, paper, etc. Look around your home to see what materials you can use.

Bellringer Instructions: Take a look at these various examples of houses constructed out of Cardboard. [Examples of Cardboard Houses](#)

Instructions:

Today you will finish construction of your house. Make sure your house is 2 ft x 2 ft x 2ft, with a doorway, windows, roof, and all sides of the outside. Have you considered all of the possible additions?

- Does your house have a chimney?
- Is there a tree or flower boxes outside?
- Where is your mailbox?
- What kind of siding and roof does the house have?
- Do you have shutters or curtains on your windows?

OPTIONAL:

Once final additions are made, begin adding color using what materials you have at home (markers, paint, a pen, Easter egg dye, etc).

Share your results using #isddoesart.
