Medical Interventions Cancer Screenings

April 17, 2020

Medical Interventions

Lesson: April 17, 2020

Objective/Learning Target:

List and describe the routine cancer screenings a person should have performed throughout his or her life. (3.2.5)

Let's Get Started:

1. Read the information on the [NIH website](#) to learn what cancer screenings are and why they are important.
2. Go onto the American Cancer Society website and watch the [videos](#) for each of the cancer screenings

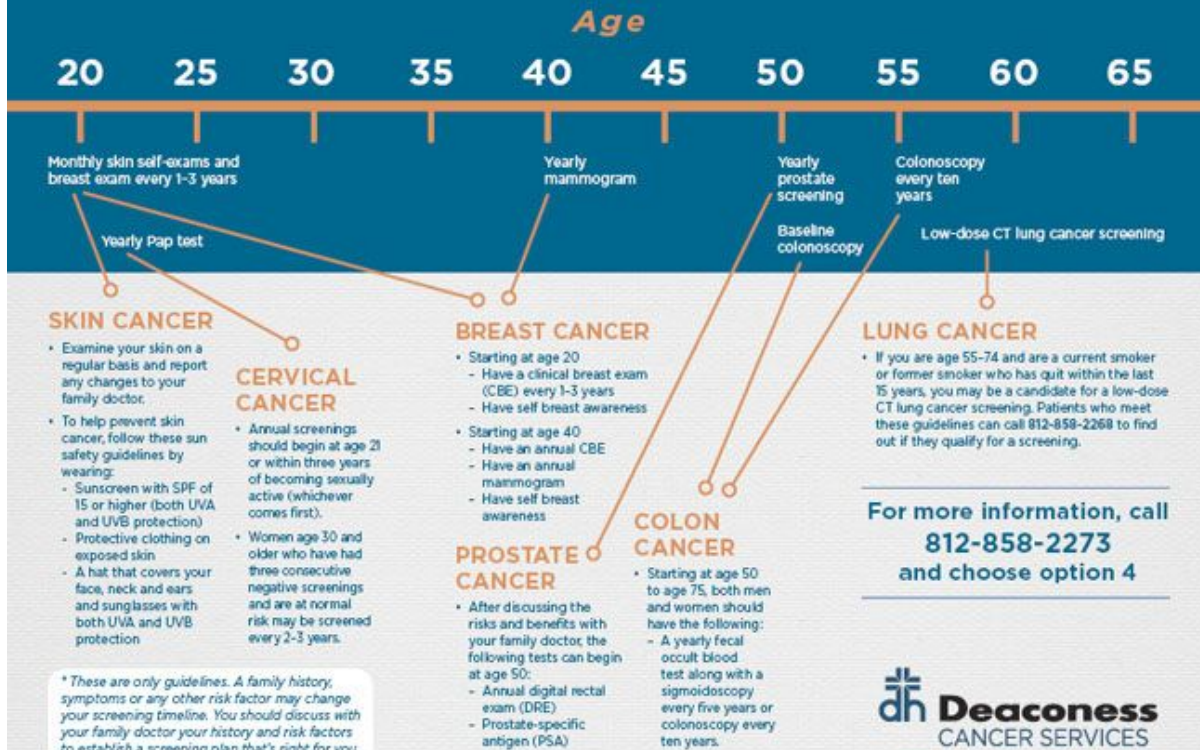

Lesson Activity

Using the information found on the [ACS website](#), create a timeline that details the cancer screenings that should be followed for both men and women throughout their lives for breast, colon/rectal, lung, prostate, and skin cancer. Include:

- Name of the cancer/screening
- Description of the screening
- At what age the screening should happen

Lesson Activity - Answer

CANCER SCREENING GUIDELINES*
