# **Medical Terminology/The Digestive System**

## **Lesson: April 27, 2020**

### **Objective/Learning Target:**

**List the structures and functions of the digestive system and define medical terms related to it.**

## Let's Get Started:

Write (in your notebook or separate sheet of paper) a brief paragraph about what you know regarding the Digestive System.

You may want to watch the first part of this [video](#) series to help refresh what you already know!

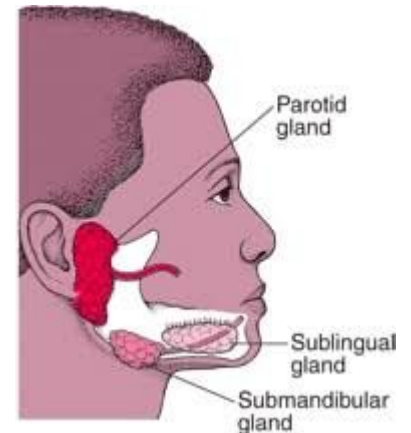

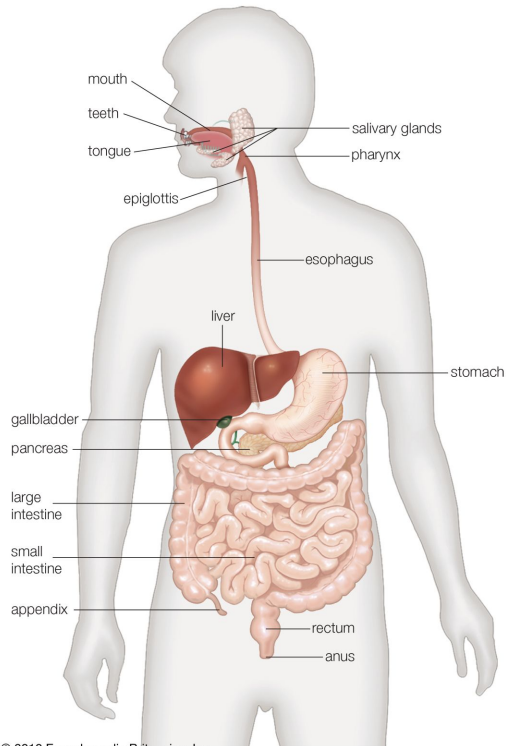

For additional knowledge [video 2](#) and [video 3](#) are attached as well.

## Practice: To Begin Exercises

Study the diagrams and try to remember each structure in its appropriate place in the body.

Then close your eyes and see if you can name and/or demonstrate their locations.

On the next few slides you will have exercises to help you learn their specific definitions and locations.

## Practice: Exercises

1. organ that stores bile \_\_\_\_\_
2. medical term for throat \_\_\_\_\_
3. organ that secretes bile \_\_\_\_\_
4. site where food enters the body \_\_\_\_\_
5. structures that secrete saliva \_\_\_\_\_
6. organ that secretes juices that aid in digestion \_\_\_\_\_
7. Structure through which solid waste pass to exit the body \_\_\_\_\_

## Practice: Exercises (continued)

8. finger-like projection located on the large intestine  
\_\_\_\_\_
9. duodenum, jejunum, and ileum are the three segments of the \_\_\_\_\_
10. the cecum and segments of the colon are parts of the  
\_\_\_\_\_

## Practice: Exercises **Answer Key**

- 1. gallbladder**
- 2. pharynx**
- 3. liver**
- 4. mouth**
- 5. salivary glands**
- 6. pancreas**
- 7. anus**
- 8. appendix**
- 9. small intestine**
- 10. large intestine**

## More Practice: Terms Related to the Digestive System
